THE CLEARFIELD PROGRESS, CLEARFIELD, PA., WEDNESDAY EVENING, AUGUST 9, 1922.

EYES OF NATION TURN TOWARDS CLEVELAND

MAIN CONFERENCE MAY NOT BEGIN UNTIL TOMORROW

Cleveland, O., Aug. 9.—A national conference of the bituminous coal strike through conference of leaders late today or tomorrow became more probable this afternoon when it was known that John L. Lewis had received assurance that some Southwestern operators will approve any action taken here.

A split in the ranks of the operators of Oklahoma, Kansas, Missouri and Arkansas fields was indicated on account of this advice. The Southwestern Interstate Operators' Association yesterday refused to take any part in the parley.

High hopes that operators in other fields who have not come to the conference would accept the agreement were held out by the miners' spokesmen. The main conference, it was learned, may not begin until tomorrow in view of this development.

Cleveland, O., Aug. 9.—Reports that the miner-operator peace parley, scheduled for 3:00 p. m. today, might be postponed were in circulation early this afternoon. It was rumored that the conference would adjourn until tomorrow. Verification of the rumor could not be obtained, however, from the leaders of either side.

Indications of a possible finish fight between miners and operators of the Pittsburgh, Indiana and Illinois fields who are holding out against settlement, were apparent today. It was stated definitely that the majority of the operators of the three fields will not be represented at the wage truce here late today. This, according to the Ohio operators, means that they will continue to hold out for wage agreements at the mines and small districts.

Refusal by these three groups to participate in the conference will not affect the possibility of reaching an agreement, it was said. Any agreement reached will tend to end the nation-wide strike, according to F. A. Maher, president of the Maher Collieries Company and a power among the Ohio operators.

According to John L. Lewis, any wage scale agreed upon will serve to end the country-wide walk-out. Lewis indicated that the union will take any agreement around to operators all over the country and sign up with as many as possible. When it becomes a choice of signing up or having their mines remain idle, most of the insurgents will sign, Lewis said.

C. A. PIERCE, WAR VETERAN, WILL BE NEW "Y" SECRETARY

The Board of Directors of the Young Men's Christian Association at a recent meeting accepted the application of Mr. C. A. Pierce for the position of general secretary of the Association to fill the vacancy caused by the resignation of C. Edwin Cook who accepted a similar position at Blairville, Pa., on July 1. Mr. Pierce is an experienced "Y" man having been in the work for the past ten or eleven years. During the war, he was engaged in Association work in the army camps for a time. He then enlisted as a machine gunner and spent the remainder of the period on the fighting front. He comes to us from West Chester, Y.M.C.A., at which place he has been serving as General Secretary for the past three years. He will assume his duties here about September 1st.

Usefulness First Requisite.
Whatever has nothing to do with ornament; it is definitely and abundantly.—Ruskin.

THOMPSON, HARDING CHOICE, LEADS FOR GOVERNOR OF OHIO

Columbus, Ohio, Aug. 9.—Carmichael Thompson, Republican candidate for nomination for Governor of Ohio, and the candidate having the support of the Harding Administration, was swept into the nomination with 60,000 votes over his closest rival, Congressman C. L. Knight, unofficial returns from 5000 of the State's 8167 precincts indicated today.

The vote is Thompson 97,672, Knight 41,137, Durand 31,979. Thompson's lead continued to grow as reports poured in from tardy counties. Donahay, Democratic candidate, was nominated for Governor by 12,000 votes over both of his opponents, T. J. Duffy and James C. Johnson, returns from the same number of precincts indicated.

M'RAE NOMINATED TO SUCCEED SELF IN ARKANSAS PRIMARY

Little Rock, Ark., Aug. 9.—Governor Thoms C. McRae was apparently nominated to succeed himself in yesterday's state primary, according to returns tabulated today. In Pulaski county where Little Rock is located, the Ku Klux Klan has apparently nominated its entire ticket by a substantial majority.

Brandon Wins in Alabama.
Birmingham, Ala., Aug. 9.—Winning by a vote which may run higher than four to one, J. W. Brandon, of Tuscaloosa, was nominated for governor in yesterday's Democratic primary, scattering returns today showed.

GREENVILLE WILL START BUILDING BIG STEEL PLANT

Greenville, Pa., Aug. 9.—A steel plant to be known as the Greenville Steel & Iron Company is to be erected here at a cost of \$2,500,000, the Greenville Chamber of Commerce announced today. The proposed output is 165,000 tons of steel. Operation probably will start in the spring, according to present plans. The officers of the new concern are former executives of the Carnegie Steel Company.

STRENUOUS BUSINESS BEING MEMBER OF BORO COUNCIL AT PUNXSUTAWNEY

Over at Punxsutawney the office of Town Councilman is a real he-man's job, and judging alone from the reports of the semi-monthly meetings, as published in the town paper, a Councilman veritably takes his life in his hands when he sallies forth to mingle with the other "good men" and true (or false and crooked), as the case may be, who have been chosen by the proletariat to do their legislating and spend their money for them.

It has reached such a stage over in "Groundhogtown", we are told, that before starting for the Council Chamber each Councilman slips a handy-billy or a pair of "steel knuckles" in his pocket, brushes off his insurance policies and turns them over to the wife of his bosom, kisses her and the children—and sometimes the cook—goodbye and departs hence to "do" or "be done" by his fellow Councilmen. If you don't believe it read what last night's Punxsutawney Spirit says of Monday night's "getting together" by the "Borough Fathers":

"Of all the regular meetings of Council, last night's was the regular—est of them all. From beginning to end there was constant bickering and

TERMS BY WHICH LEWIS WILL TRY FOR SETTLEMENT

It was believed that the bituminous controversy will be settled on the following basis:

First.—Renewal until March 31st, 1923, of the wage agreement which expired March 31, 1922.

Second.—Continuation of the check-off system (deduction of union dues from miners' pay) to be turned over to the union.

Third.—Appointment of a commission of miners and operators to investigate the mining industry and make reports upon which future wage agreements will be based.

Fourth.—Agreement to begin negotiations for a new wage scale several months before the end of this agreement in order to prevent another strike.

The strategy of John L. Lewis is apparent in the announcement that the tonnage to be represented at the parley now totals more than 100,000,000 tons in comparison with 69,000,000 tons on Monday.

HAS THE COAL BUT CANNOT MINE IT; COURT TO DECIDE

Some years ago at a tax sale the coal under or supposed to be under the Bunchko place at the foot of the mountain between the Rockton and Penfield roads was sold at tax sale and as everybody considered there was no coal there, but little attention was paid to it, with the result that the late James Nolan, Esq., of Chester Hill, got title to the coal right under the 275 acres for a song.

Nothing more was thought of the matter and several years later the surface was sold at tax sale and to a Mrs. Bunchko and she has been home for her for the few remaining years of her life, the County Commissioners bought in the property, entered the taxes as a lien against the farm and allowed the old woman to remain unmolested. The accruing taxes were charged up in a similar manner until two years ago when an agent of Mrs. Bunchko sold the farm to John F. Leitzinger, who has

(Continued on Page 5.)

SYMPATHY STRIKES DEVELOP IN RAIL WAGE DISPUTE

Sympathy Strike Begins.—Chicago, Ill., Aug. 9.—Thirteen hundred Big Four brotherhood men, on the Elgin, Joliet & Eastern Railroad, at Joliet, were on strike today in protest against troops guarding the right of way. The walk-out included engineers, firemen, conductors and trainmen. Switchmen were expected to join the strike today. The E. J. & E. is an outer belt line serving the industrial town, in the Chicago switching district. Union leaders declared the strike was the most important sympathetic move since the shopmen's walkout started.

Join at Wilkesbarre.—Wilkesbarre, Pa., Aug. 9.—One hundred and fifty maintenance of way employees on the Central Railroad of New Jersey, employed at Ashley, walked out on strike at 7:30 this morning. The men were members of the maintenance of way union but believed their work of cleaning fires and working in the shopmen's places brought them under the jurisdiction of the shopmen's organization and so voted to strike.

Stone's Statement.—Cleveland, Ohio, Aug. 9.—Warren F. Stone, President of the Brotherhood of Locomotive Engineers, today issued the statement that negotiations for a settlement of the bituminous coal strike in fifty other places when informed that brotherhood members employed by the Elgin, Joliet & Eastern Railroad had walked out. The guards and members of the State Militia have threatened them and made the situation there so intolerable that it was probably impossible for them to remain at work any longer, Stone said.

"Farmers' Quit." Paterson, N. J., Aug. 9.—Nearly 250 workers of the Cooke Plant of the American Locomotive Company here are out today in protest against making repairs to locomotives of the Erie Railroad, on whose lines the shopcraft men are on strike. The men who quit work voted several days ago to do no work ordinarily done by the shopmen now on strike.

Gleason Motion Denied.—Pittsburgh, Aug. 9.—A motion by Attorney James A. Gleason of DuBois to dissolve the restraining order against the seven railroad labor organizations of the Buffalo, Rochester & Pittsburgh Railway Company was denied by Federal Judge Gilson today. During the argument which consumed the entire morning Attorney Gleason who is counsel for the Union, received a special delivery letter notifying him of a fire in the DuBois Shops last night. The letter stated that the emergency firemen responded and extinguished the blaze.

BUMPER CROP SURE INDICATED BY GOVT. REPORT

Washington, Aug. 8.—Bumper crop production in general this year, resulting from highly favorable growing conditions, was indicated by the government August reports. A three-billion-bushel corn crop for the fourth time in the history of farming was forecast.

A record crop of hay totalling 93,100,000 tons is being harvested, surpassing the record made in 1919 by 1,300,000 tons.

The second largest crop of white potatoes ever grown was reported, the total being 440,000,000 bushels or 2,000,000 less than the record crop of 1917.

Blessings of Stumber.—Now, blessings light on him that first invented this same sleep! It covers a man all over, thoughts and all, like a cloak; it is meat for the hungry, drink for the thirsty, heat for the cold and cold for the hot.—Cervantes.

OPERATORS OF TWO BIG FIELDS REFUSE TO MEET MR. LEWIS

Cleveland, Aug. 9.—Expectation of a settlement of the soft coal strike on a national scale vanished last night among the union officials and operators here with the receipt of reports of the failure of Indiana and Illinois Operators Association to agree to join the conference. The hope, however, was held out that settlement affecting scattered mines in Indiana, Illinois, Ohio and Pennsylvania and possibly West Virginia may result from the conference which reconvenes tomorrow.

President John Lewis, of the miners, announced that the joint conference would re-assemble to open negotiations. The question, however, of whether the miners would be willing to make an agreement with the operators now here was undecided and indications were that a decision would be deferred until after the afternoon meeting with the operators, mostly from Ohio. A few operators also are here from Pennsylvania, Indiana and Illinois.

Confidence, however, was expressed by some that the number of operators willing to make a settlement was sufficient to make a break. Some West Virginia operators were expected to join in on the conference.

Will Not Attend.—Terre Haute, Ind., Aug. 8.—The Indiana Coal Operators Association will not attend the Cleveland conference called by President Lewis, it was announced following a meeting of the scale committee.

A. M. Ogile, president of the National Coal Association, who is also an Indiana operator, said he would not go to Cleveland and said that hope for a settlement at that place was small.

May Make Separate Peace in Illinois and Indiana

Chicago, Ill., Aug. 9.—A separate peace in the Illinois and Indiana coal fields was forecasted today and predictions were made that a settlement was close at hand. These rumors were given strength by reports from the coal districts of these states that preparations were being made to start work at the mines. A despatch from Marion, Indiana, declared that several hundred men had been called to prepare five mines for reopening in Williamson county.

Lucky Man Always a Worker.—When a miner lands a nugget, folks usually say that he is lucky. But it isn't luck. The miner went for nuggets where they were—and dug, and dug, and dug. When you land a prize it is because of work—and brains. The possessor of good luck is a worker.

Today's Wise Word.
"Not a having and a resting, but a growing and a becoming, is the character of perfection."—Matthew Arnold.

LITERARY EFFORT OF SURVEYOR MAN LANDS HIM IN BOUDOIR NO. THIRTEEN

Literary effort when directed along right lines is something to be proud of but when misdirected it usually spells trouble for the author or wielder of the pen. At least that is the conception of one Harry Stuller of Surveyor, who now occupies Boudoir No. 43 down at Tom Lowell's haven of rest.

On July 10th Stuller is alleged to have taken his pen in hand and drawn a check for \$25 to the order of Amos Wall, signing the name of Miles Woodlee to the check. Being proud of his penmanship Stuller then endorsed the name Amos Wall on the back of the check and to show that he played no favorites also put the name of the alleged drawer of the check on the back thereof as an evidence of good faith.

CAR AND OCCUPANTS GO OVER HOG BACK BRIDGE LAST NIGHT

The kind fates which look after auto wreck victims in these parts were working overtime last evening on the Clearfield-Curwensville state road, when the auto driven by Jack Gray, of Carnwath, went through the side of the wooden bridge over the Pennsylvania railroad tracks at Hogback and after hanging suspended momentarily toppled over and dropped twenty feet or more straight down into the railroad.

The accident occurred about 6:45 o'clock. The car was occupied by Mr. Gray, his wife, Mrs. Abner Smith, a man named Durwyn Hunter and Evelyn Gray, 8-year-old daughter of Richard Gray, all of Carnwath. They had been visiting at the home of James Gray and Alex Hynd on South Second street during the afternoon and were on their way home to Carnwath.

They traveled up the state road and attempted to turn off about half way up Hogback hill for the purpose of taking the cross-over to the Glen Richey road. There was a large mud hole at the junction of the dirt road with the state road and when Mr. Gray swung his car off the concrete the rear wheels slid over into this mud hole, throwing the front end of the car over against the right side of the bridge. Springing his steering wheel, Mr. Gray turned the car so quickly that it shot across the bridge and broke through the railing on the left-hand side. A projecting timber caught and held the car suspended over the twenty-foot drop and it was so evenly balanced that it teetered there possibly twenty seconds before it plunged over to the bottom of the cut.

Alex Hunter and several other Carnwath people were following the Grays and were close at hand when the accident occurred. Mr. Hunter said the car was so evenly balanced as it hung suspended over the side of the bridge that five pounds more weight on the rear would have prevented it from going over.

Mr. Hunter and his party, Mr. and Mrs. Lloyd Kracht of Clearfield, who were also near the scene when the accident occurred, clambered down the bank and assisted the occupants of the Gray car out of the wreck. It had apparently landed on its nose and then toppled over on its side.

Mrs. Gray had an arm broken in two places, with other minor bruises and was severely shocked. Mrs. Smith suffered from shock and minor bruises. Mr. Hunter had his face slightly cut and scratched, while Mr. Gray and little Evelyn were uninjured. How the entire party escaped much more serious injury is but another of those mysteries which appear to follow recent automobile accidents in this section.

Mrs. Gray and Mrs. Smith were (Continued on Page 6.)

GOVERNMENT KEEPS CONGRESS ON JOB FOR STRIKE DUTY

Washington, D. C., Aug. 8.—President Harding has practically ordered all members of the House to be back on the job August 15th so that he may turn to them for any legislation he feels is necessary in the handling of the coal and rail strikes, it was made known at the White House today. The original plan was for a few members to return next Tuesday and then take three-day recesses until the Senate took final action on the tariff bill and other measures. The President's action, therefore, virtually amounts to summoning the House, which has been in recess for about a month, back to Washington to meet any emergency that may arise. Believing that the coal and rail strikes are serious, President Harding suggested to the House leaders that they abandon their plan of three-day recesses after August 15. The White House made it known that President Harding feels there is an undervaluing of the seriousness of both situations. The Executive's action was taken as an indication that he will not hesitate to take over the railroads or mines should such action be necessary for the public welfare.

Washington, D. C., Aug. 9.—President Harding next week will place before Congress for approval the Government's plan for seizure of certain railroads and coal mines if the twin strikes show no signs of breaking down by that time. Administration officials stated today that the administration has abandoned hope of settling the rail strike but is still hopeful, although not confident, that the coal strike will be settled soon. President Harding desires the presence of the House members in Washington for any emergency measures he may find it necessary to take. Although the executive now has authority to take over the railroads or the mines when he believes that conditions would warrant such action, President Harding desires Congress' sanction of such a drastic step and in order to be completely prepared to meet any emergency the President has summoned all members of the House back to Washington.

Small Riot at Nanticoke.—Nanticoke, Pa., Aug. 9.—State troopers, deputy sheriffs and coal and iron police clashed today with idle miners and sympathizers here in a mine riot. One man was sent to the hospital with a deep scalp wound and half a dozen others suffered minor injuries.

Commission Named.—Harrisburg, Aug. 8.—Governor William Sproul tonight named a fuel commission of seven members. He directed them to organize as soon as possible.

Chairman W. D. Ainey, of the Public Service Commission, was named as chairman, others being James W. Ann, Philadelphia; William Furey, president of the Pittsburgh Chamber of Commerce; Edgar C. Felton, Haverford; Representative Hugh Dawson, Scranton; S. B. Crowell, Philadelphia; William Wreh, Erie.

The commission will have its headquarters here and Messrs. Ainey and Bann will go to Washington tomorrow.

Indiana May Use Convict Labor.—Indianapolis, Ind., Aug. 9.—Convict labor will be rushed into Indiana coal fields to dig coal under martial law if all other state plans to break the fuel famine fail, Governor McFray indicated today.

An Egotist's Imagination.—Jud Tunkins says that only an egotist imagines he can make his own little hard luck story interesting to nobody.

ODDS AND ENDS AND THINGS

By J. D. C.

We hear a whole lot of hot air these days relative to what the wets are about to do toward repealing or amending the Volstead Act, and as we surmised the other day, a whole lot of people are telling what is going to happen to the law, due to the change in sentiment among the voters, but we notice at almost every primary—the Missouri senatorship excepted—the candidate who runs on a wet platform invariably "falls outside the breastworks," so to speak. The latest victim of this wave without votes is Durand, a pronounced wet, who came out a very bad third in Tuesday's battle for the Republican nomination for governor of Ohio.

This being the season for drownings and so many occurring almost daily throughout Central Pennsylvania, it might be well for everybody to read carefully the following instructions relative to the method to pursue in the case of attempting resuscitation of a victim of the water, which is offered by Uncle Sam's Public Health Service.

Uncle Sam has come to the fore with the latest official method of resuscitating a drowning person.

"Now that the antics of the merry boat rockers and the incautious canoeists are cluttering the pages of the newspaper with detail of numerous accidents," said an official bulletin of the Bureau of Mines, "interest attaches to instructions just issued by this bureau for resuscitation in cases of drowning."

As soon as the victim is taken from the water, the instructions say, place him face downward, clasp your hands under his stomach and lift him several times, letting his face hang down so as to drain his mouth and throat.

"Then," the instructions continue, "remove from his mouth any foreign bodies, such as tobacco, false teeth or gum. Do not stop to loosen his clothing. Do not carry him any distance. Do not wait for a doctor. Tread him yourself by artificial respiration methods, as follows:

Lay Victim on Stomach.
"Lay the victim on his stomach with his face to one side so that his nose and mouth are free for breathing. Place one arm straight out beyond his head, the other under his head. This position is important as it helps to expand his lungs. Have the head a little lower than the body."

"Kneel, straddling the victim, thighs and facing his head; take the victim's hands on his chest with your thumbs resting with the spine and about two inches apart, and with fingers spread out as much as possible."

"With arms held straight, swing forward slowly so that the weight of your body is gradually, but not violently, brought to bear upon the victim. This act should take about two seconds. Then, leaving your hands in place, swing backward slowly so as to remove the pressure, thus returning for two seconds to your first position."

The swinging forward and backward process, the instructions emphasize, should be repeated deliberately at least fifteen times a minute, a complete respiration in about four seconds. The movements should be kept in time with your own breathing.

Continuing, the instructions say:

Draw Tongue Forward.
"While the artificial respiration is being continued, have an assistant draw forward the victim's tongue, if it has fallen back. Hold it by the tongue out if it tends to draw back by wrapping a handkerchief around it. The handkerchief may also protect the assistant's fingers from being bitten. The assistant should also loosen any tight clothing around the victim's neck, chest or waist."

Do not permit bystanders to crowd about and shut off the

shall be subject to all the rules and regulations for the control of the sewer system of the Borough of Clearfield.

Ordained and enacted this seventh day of August, A. D. 1922.

GEORGE M. ROSSER
President of Council

Attest:
J. D. CONNELLY
Secretary of Council.

Examined and approved this seventh day of August, A. D. 1922.

fresh air. Keep the victim warm with proper coverings and by placing beside the body hot bricks, bottles or rubber bags filled with warm (not hot) water. Wrap bricks, bottles or bags so as to prevent burning the victim. Continue the artificial respiration without interruption until natural breathing is restored, or for at least three hours. If natural breathing stops after being restored, use artificial respiration again."

The victim should not be given any liquid by mouth until he is fully conscious, the instructions warn.

Eliminating Danger From Fumes.
Fumes from chemical plants have been one source of many damage suits. Chemical engineers today are making many successful experiments which will ultimately lead to the elimination of all such fumes. Smelter fumes are being recovered and made into sulphuric acid.

Relieves Monotony of Life.
Everything may be terribly cut and dried certainly by a married woman, except this: She never knows what her husband will get mad at next.

Nature's Freakish Moods.
Nature is full of freaks, and now and then a young man's shoulders are thrown back and he is leaning under

EJECTMENT SUIT IS BEGUN

An action of ejectment was begun in Prothonotary Ralston's office this morning by Miller & Hartwick on behalf of the Thomson-Lea Coal Mining Company, which concern seeks to recover possession of a house and lot owned by them in the village of Elton, Chest township, now occupied by Peter Welch. The statement filed recites that the Thomson-Lea Co. on Jan. 1, 1922, employed Welch as a mine foreman at a salary of \$200 per month and he moved his family into house No. 27 owned by the company at their mines at Elton. On June 1, 1922, Welch severed his connection with the coal company but still occupies the property and this suit is brought for the purpose of ejecting him.

Enjoyment in Chasing Knowledge.
Our remote forefathers chased knowledge, so to speak, through the heavens and over the earth on a big piggyback, and they doubtless wasted good deal of time, but they enjoyed a fine exhibition, beyond any they could have got in chasing it down a rathole like a weasel.—Robert M. Gay

Revelation Brought by Age.
The longer we live and the more we think the higher value we learn to put on the friendship and tenderness of parents and of friends.—Doctor John

"Mrs. Grundy" was the name of a lady in Thomas Morton's "Speed the Plow," a play written in 1798. Like Dickens' Mrs. Harris she was not a real character in the play, but everybody in the play who tried to do anything that was not proper was told that "Mrs. Grundy" wouldn't like it. The expression is generally used to mean the power of other people's ideas of what is right and proper to control our own actions.

Fine Medieval Buildings.
There are many remains of Roman buildings in different parts of Europe. Their bricks are much smaller than ours, more like the modern tiles in shape. The workers in England called them (we have all heard of Wat Tyler) were probably brickmakers. Two fine examples of brick architecture in the England of medieval days are Hampton Court and Lambeth Palace, London.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

Chamberlain's Tablets

MORE CARS THAN EVER

With 44,829 more passenger cars registered in Pennsylvania up to August 1st than during all of last year, it is evident that the "saturation point" the experts are always talking about in connection with the automobile industry is still far from being reached. In a single recent month Detroit factories sold over 200,000 cars.

The total Pennsylvania registration of passenger cars on August 1st was 677,370 and the institution of the half-rate for licenses for the rest of the year should mean many thousands more before 1922 is ended. Last year a total of 10,449,785 motor vehicles were in use in the United States, a gain of 1,517,327 over 1920. In proportion of cars to population California was in the lead with one for every 5.19 persons, or almost at the rate of one for each family. The national percentage was one car to 10.10 persons.

The United States is virtually the only country in the world where the automobile has been removed from the "luxury" to the "necessary" class.

A highly significant statement was made by an American employer the other day with regard to the fixing of pay for employees. He said that in figuring their necessary expenses, their "fixed charges," the cost of keeping at least a small car had to be taken into consideration. There is no truer saying than that the luxuries of yesterday are the necessities of today. It is noticeable that the term "pleasure car" is less used than formerly. The automobile is as much a vehicle of recreation as ever and touring is increasing in popularity, but its practical use is paramount and so recognized.

The automobile industry never had more solid grounds for counting upon continued prosperity, greater than it has ever known.

LOST IN PENNSYLVANIA WILDS

It doubtless would strike those not familiar with Pennsylvania as strange that anyone other than a child could get lost in the woods of this state of nearly 9,000,000 people. One of the oldest states in the Union, with settlements in nearly every section for at least a century, and with all but a small part of the virgin timber gone, Pennsylvania, it would seem, was one of the last regions in the United States where it was possible for adults to lose their bearings and wander aimlessly in the woods for more than an hour or two at most. Yet cases are not infrequently reported of grown persons being lost over night.

In Sullivan county a few days ago a Philadelphia art student, a veteran of the World War, accompanied by a young woman, started on a hike into the woods. They became lost and were unable to find a trail which would lead them to civilization. When they failed to return that night to the town from which they had set out the church bells were rung in the hope of guiding them back, but to no avail. They were out all night. The next day a posse of 100 men combed the hills and woodlands and finally found them, exhausted after a day and night of wandering.

It is not necessary to go to Canada or the Far West to find the wilderness. Though they are protected during all but a short season more bears are killed in Pennsylvania each year than in many of the supposedly wilder western states—another evidence of the existence of large stretches of wilderness.

Those seeking wild country in which to spend a vacation will have no trouble in finding what they want in Pennsylvania.

BURGLARY INSURANCE

Twenty-six companies have issued, jointly, a \$26,000,000 burglary insurance policy, covering securities for which the state treasurer of Pennsylvania is responsible. It gives the state protection against loss for three years at a cost in premiums of something more than \$32,000.

The transaction is an unpleasant commentary on the times. Burglary insurance is steadily increasing in favor. One would suppose that a commonwealth like Pennsylvania would be able to protect itself against theft. But it is well to take no unnecessary risk. Extraordinary daring and resourcefulness are shown by the up-to-date robber. He does not hesitate to attack trains, banks, postoffices and stores, even in broad daylight, with hundreds of persons looking on.

HELPFUL ASSISTANCE FOR THE BUSINESS MAN

More than fifty years ago the County National Bank was organized in Clearfield.

It has seen more than half a century of development in the Clearfield District.

Many of the prosperous business houses of the district owe their success in part to the assistance of the County National.

The helpful service of the bank is offered to business men who wish a connection with a strong commercial bank.

Your account will be appreciated.

And Now Look!

Harry Fox, stage comedian, carried Beatrice Curtis to the corner grocery when she was two years old. She has been with him in vaudeville two years and now they announce they were married at Akron, O., a month ago.

Logically Put.
Employer—"It seems to me that you want a large salary for one who has had so little experience." Youth—"Well, sir, ain't it harder for me when I don't know how?"

ANOTHER "BUCKTAIL" MUSTERED OUT

George W. Gates, a "Bucktail" in the Civil War, is dead at his home in Juniata, Pa., at the age of 80 years. Comrade Gates was a member of Co. D, Thirtieth Pennsylvania Reserves, and served in the army four years and four months. He is survived by a family of twelve children.

Seed Sown in Peculiar Manner.

Steeple grass, which grows in Russia, has a curious way of sowing its seed. It forms a coil of fiber which twists on wet days, thus working its way into the ground. When the weather is dry the coil untwists, but remains fixed in position owing to a barb at the end under the soil.

At an Early Date.

And Punk says the house problem started when Adam and Eve left the garden of Eden; also the report that the fruit crop was a failure.—Birding into A. S. M. H.

CURWENSVILLE

D. L. Irvin left Tuesday for a business trip to New York and Boston.

Mrs. Clark Boyer of Akron, Ohio, has been visiting Mr. and Mrs. Arthur Robinson for several weeks.

J. M. McKinley, accompanied by Mr. and Mrs. D. J. Hopwood motored to Pittsburgh Monday.

Mrs. Rhoda Fullerton arrived home Monday evening after spending several months with her daughter Mrs. Richard Patterson of Philadelphia.

Mrs. W. A. Thompson and Miss Alice Harley shopped in Clearfield Monday afternoon.

Mr. and Mrs. David Dunn, left Tuesday for their home in Pittsburgh.

Jimmie Sheridan, our popular sweet shop and cash groceryman has invested in a new Ford truck to aid him in his increasing business.

Miss Jeanette Strickland who has been visiting in Buffalo, N. Y. for several weeks returned home Tuesday.

Miss Margaret Hipps entertained a number of young people at her home on South Side Tuesday evening.

Mender Brunetti, Professor of Languages at the University of West Virginia, Morgantown, W. Va., is visiting his parents.

Mr. and Mrs. Will Wiley of Hyde City took in the picture "Way Down East" shown at the Opera House Tuesday night.

BIGLER

Mrs. Ira Haney of Clearfield visited her sister Mrs. Maurice Bush Sunday.

Mr. and Mrs. Verdon Michaels and son Jack of Kylertown and Mr. and Mrs. Dorris Michaels and three children of Kermoreau spent Sunday at the home of Mrs. Kate Michaels.

Mr. and Mrs. Ambrose Davis and Mr. and Mrs. T. Slinger of Winburne spent Sunday at the home of Joe Peters and Wayne Taylor.

Mrs. Lloyd Stevens and daughter Grace spent part of last week visiting relatives at Osceola Mills.

Mr. and Mrs. J. V. Knepp and family of Woodland and Mr. and Mrs. Charles Shugarts of Clearfield motored here and spent Sunday afternoon with the ladies mother, Mrs. Eva Williams.

Mr. and Mrs. Maurice Bush and the latter's brother, Charles Graffius, spent the past week at Dale's Hunting Camp at Lost Run. While there they saw four deer and three fawns and killed three rattle snakes. Mrs. Bush killed two, one of them having ten rattles and the other thirteen.

C. A. Walker and family have returned from a delightful trip to Atlantic City.

Mr. and Mrs. Jake Bumbarger of Wallacetown spent Sunday with their son Reggie and family.

Pat Waple is sporting a brand new Ford roadster.

SPECIAL AT MIDWAY

PHILIPSBURG

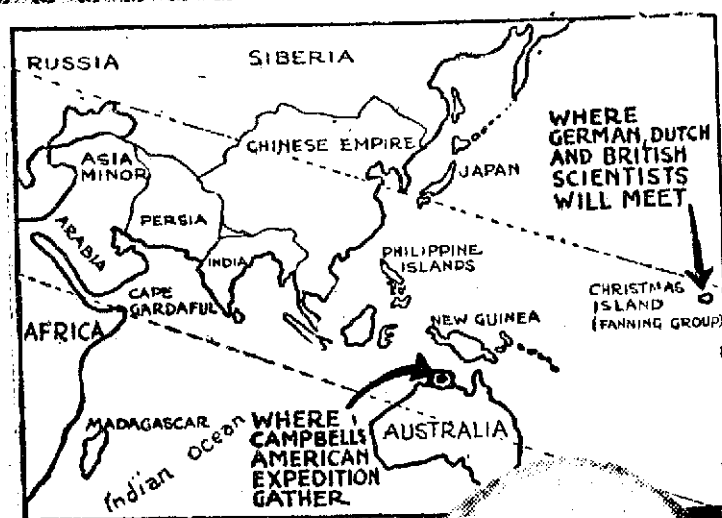

Thursday, Aug. 10th, Sunday, Aug. 13th, at 2:30 p. m.

The wonder girl, Virginia Stomm, of Balboa, Canal zone. Miss Stomm is the present high and fancy diving champion of the canal zone. She was a contestant at the official opening of Tex. Rickert's Madison Square Garden pool, New York City. She is the youngest member of the red, white and blue troupe of the canal zone.

Miss Stomm is 9 years and 3 months old. At 6 years of age she was awarded first prize for being the most perfect child, having 95 points out of 100, 5 points being taken off for 2 defective baby teeth.

Miss Stomm will do fancy and high diving, the Hippo swim and all other strokes.

SCIENTISTS TO RISK LIVES IN EXILE TO TEST EINSTEIN

By GENE COHN
San Francisco, Aug. 8.—The world of astronomical science is hurrying to remote spots of the South Seas and Antipodes where learned scientists will risk life and health—To trail a beam of light!

Two American expeditions already are under way, taking with them tons of the latest sky-searching apparatus and photographic equipment.

From Berlin is being rushed some thing absolutely new in telescopes, the work of years in the Zeiss plant at Jena, while a company of German and Dutch astronomers accompany it, headed by Dr. Joseph Hoppman. They are bound for a lonely spot on Christmas Island, in the Fanning group.

The Royal Astronomical Society of England also is sending its envoys to Christmas Island.

For Sept. 21 a total eclipse of the sun will be visible over a narrow ridge 100 kilometers wide, stretching from Cape Gardafue in Africa, through the Indian Ocean, and on the northwest coast of Australia.

Selection of sites for this spectacle are limited, for the tests and photographs to be made in connection with this eclipse are no other in astronomical history.

Test Einstein Theory.
Why? Because the men of science are to put the Einstein theory of relativity to its severest test.

What this test will be was explained to NPA Service by Professor W. W. Campbell, of Lick Observatory, who heads the American expedition, just before he sailed. The American party will make its observations from the remote 90-mile beach on the northwest coast of Australia.

"The thing Einstein has predicted," explains Professor Campbell, "is that

Map showing where scientists of three nations will test Einstein theory. Below, Professor W. W. Campbell who will head one of the American expeditions.

during this eclipse certain stars occupying a position in the sky near the sun will seem to be displaced slightly away from the sun.

"Absolute proof of the theory can be secured only during a total eclipse of the sun, for under such condition the light of the sun is hidden and it is then possible to photograph the stars in the sun's vicinity.

"What we are testing is one of Einstein's three leading deductions which is that the rays of light from a distant star undergo a noticeable deflection as they pass near the sun."

The coast of Australia for which the American scientists are destined is one of the most rugged in the world.

Where This Country Leads.
The fishing industry of the United States is not nearly as great as some of the countries of Europe, but no country in the world has had the foresight to stock its inland waters as the United States has done.

Potential Wealth for Argentina.
All the plants cultivated in Europe for the sake of their volatile oils will grow readily in some parts of Argentina and experiments show that they will give a yield of oil equal in quantity and quality to the European products.

Hubby Couldn't Lie.
"Does your husband ever lie to you?" "Never." "How do you know?" "He tells me that I do not look a day older than I did when he married me, and if he doesn't lie about that I don't think he would about less important matters."

French Popular in South America.
Throughout South America French is almost universally read; editions of the classics are in most homes and book stores are filled with modern French writers of prose or verse, both in translation and in the original.

Christian and Missionary Alliance Gospel Tent Campaign Near B. R. & P. Station Clearfield

Beginning Thurs., Aug. 10th, at 7:30 P. M.
Sunday at 2:30 and 7:30 P. M.
Held by the Christian and Missionary Alliance.

Rev. Guy Gooderham of Clymer, Pa., will be the Evangelist for the first part of the campaign, assisted by Rev. Salvie.

Other speakers will be announced later. The Fullness of Christ will be preached. All the sinners and sick people are specially invited.

All Welcome.

DIGEST POLL STILL CREATES INTEREST THRUOUT NATION

The Literary Digest's poll on the matter of the enforcement or modification of the 18th Amendment and Volstead act has now reached the five hundred thousand mark and we give herewith the result of the third count reaching that total.

"It should be possible to form an accurate estimate of public opinion," predicted the New York Tribune, commenting on the tabulation of the first 200,000 votes in the Digest's national referendum on prohibition, "when the third or fourth hundred thousand are tabulated." With this issue a tabulation of some 480,000 votes is presented, and numerous publicists are ready with estimates of the state of public opinion which the ballots show. One outstanding fact about the poll continues to be the steadiness with which the earlier distribution of the vote between "wets," "moists" and "drys" has been maintained. The present tabulation, which may be said to show a fair number of returns from more sections of the country, reveals much the same state of public opinion as shown in the first, second and third tabulations. This showing, of course, is interpreted in different ways by different commentators.

Summary of 480,043 Ballots.
PROHIBITION.
Those in favor of the strict enforcement of the Eight-

eenth Amendment and the Volstead Law 181,704
Those in favor of a modification of the Volstead Law to permit light wines and beer 196,854
Those in favor of repealing the Prohibition Amendment 101,475

SOLDIERS' BONUS.
Do you favor a Federal Bonus for all soldiers and sailors who wore the uniform during the World War? Yes 233,813; No 241,440
A new factor, a real unknown quantity, will be introduced into the poll by the returns from a special poll of 2,000,000 ballots which the Digest has just mailed to women voters. It has been argued that women are predominantly "dry," and, with equal fervor, that they are not so. The votes from this number of women, selected at random from the voters' lists of cities, towns and country districts throughout the nation, should give a fair indication of the attitude of the women. Its introduction into the poll will help, also, to balance the general voting list so far used in mailing the Digest ballots, in which men have been in the majority. A careful figuring of percentages indicates that returns on a poll of 2,000,000 women will fairly balance, as between men and women voters, the complete referendum of 10,000,000 voters which is being taken.

Granting, however, there is an opportunity for a display of "dry" strength in this feminine vote, the factory polls which the Digest is taking continue to be extremely "damp." A careful poll of the establishment of Parke, Davis & Company, manufac-

turing chemists, of Detroit, shows the following results:
For enforcement 1,218
For modification 1,081
For repeal 1,211
This vote, with its ratio of 8 to 2 against the present laws, is not quite as "damp" as was the poll of the Edison works, summarized in these columns last week, with a ratio of approximately 20 to 1 against "bone dryness." Combining these two polls, the attitude of the workers in two representative factories may be summarized as follows:
For enforcement 211
For modification 2,059
For repeal 1,177

"DON'T BET"—THAT'S STRAIGHT TIP FROM FAMED JOCKEY

BY MILTON BRONNER.

Paris, Aug. 8.—Here are some tips "straight from the feedbox"—from the American jockey, Frank O'Neill, premier rider of French race tracks, and regarded as the greatest jockey in the world.

Says O'Neill: "I think gambling on horses is a game of fools."

"I never bet, and I never give tips to friends."

"The only certain thing about horse racing is its uncertainty."

"The merest trifle may transform the certain winner of one moment into the certain loser of the next."

"No jockey who knows the game regards his race as won until the judge has hoisted the winning number."

Idol of French Tracks.
O'Neill is the idol of the French tracks and in 14 years' racing in Europe has won 1,300 races, prizes to the owners ranging from 2,000 to 1,000,000 francs.

You can't find O'Neill loafing about the boulevards or race tracks or jazzing around Montmartre. He has a house and garden in the suburb of Maisons Laiffite, where he lives with his wife, his 15-year old son and two little daughters.

"I've been successful and I've made money," says O'Neill. "But I don't make anything like the huge sums dopesters say I do. When I'm not riding I'm at home playing with the kids."

SCHEDULE OF HORSE SHOE PITCHING TOURNAMENT

(Second Elimination)
Thursday, August 10, 7 p. m., Machine Shop courts: Keystone Ice Cream 1, Ennis and Ogden, Textile, Witherow and Jay; Brunner and Hughes, Cowdick and Shaw; Duckett and Wilson, Peters and Shipley; Keystone Ice Cream 3, Healey and Sande.

Friday, August 11, 7 p. m., Machine Shop courts: McCloskey and Leasure, Smith and Johnson; Haney and Gilbert, Flegal and Flegal; O'Donnell and Hixon, Hudson and Hudson.

Last entries to be announced tomorrow. Men, please note when you play and be there.

As Proved by History.
"What will become of our young people?" wails a reformer. Oh, they'll grow old and worry about the young people.—*Brooklyn Star*

Planets Named After the Gods.
The planets derived their names from the mythological gods or goddesses.

HAS THE COAL

Continued From Page One

since improved it considerably.

At the death of Attorney Nolan a few months ago the title to the coal under the Burchko place became vested in Mrs. Blanche Nolan, widow of James Nolan.

About July 20th a son-in-law of Mrs. Nolan's came to Clearfield from Altoona and employed Fred M. Burchfield of Turnpike avenue, to go upon the Leitzinger place and proceed to prospect for and open the coal. Mr. Burchfield did so and quickly discovered a 30-inch vein of coal.

Learning of the mining operation upon his farm, Mr. Leitzinger had a warrant issued for the prospector for trespass, and on August 2d last Squire F. G. Chorpennig, after hearing the evidence, summarily convicted Mr. Burchfield under the trespass law and he was given a fine and costs amounting to \$25.75.

The testimony at the hearing disclosed that Mrs. Nolan owned the coal, but as her tax deed made no provision for going upon the ground to mine and remove same, the title held that Mr. Leitzinger, who owned the surface and had his lands properly posted against trespassers, was fully within his rights when he arrested the prospector as a trespasser and the fine provided by the Act of Assembly was accordingly imposed.

An appeal from the 'squire's decision has been taken and Judge Ball fixed September 1st as the day for hearing argument on the appeal.

Early Start.

A doctor lately married a girl whom he had ushered into the world twenty years ago. Real love at first sight.—*London Opinion*.

taken to the Clearfield hospital for medical treatment and are getting along very nicely at this writing, Mrs. Smith having practically fully recovered from her injuries.

Another Wreck.
James McLaughlin, the Third street barber, had a perfectly good automobile ride spoiled last evening when his car slid over the bank off the Penfield road out near Moose Creek reservoir and upset. It was one of those lucky auto smash-ups as nobody was hurt, but the machine will never look the same.

BASEBALL CARTOON ON DISPLAY

Rev. Rodell, the Methodist pastor at Woodland, is considerable of a cartoonist. The series of games between the American Legion ball team and the Gearhart Yarnbusters moved the reverend gentleman's artistic bent and he sat down and dashed off a very clever sketch in which the situation as it exists today is accurately depicted. He presented the sketch to the sports department of The Progress and we have the same on display in our window.

Ask Yourself These Questions.
Do you count your birthdays thankful? Forgive your friends? Grow gentler and better with advancing age?—*Honolulu*

Judgment.

Matrimony seems, generally speaking, to be a court proposition. He begins by suing for her hand and she ends by suing him for alimony.

"Dry" Wines.

Wines are referred to as dry when completely fermented, only 0.1 per cent of sugar remaining.

FIREMEN GOING TO DUBOIS OUGHT TO TAKE BAND ALONG

The Clearfield Fire Department held its regular monthly meeting Friday, Aug. 4 in the Second ward hall and with the business transacted declared their intention of attending in full force the Central District Volunteer Firemen's Association convention at DuBois, Aug. 17. On the same evening the ladies of the Reedsville chapel were giving an ice cream and cake festival on the chapel lawn. After the firemen's meeting had adjourned, the boys all went up and partook of ice cream and trimmings to suit. While this was going on Kay Patton relieved himself of considerable auctioning blandishments by which he succeeded in disposing of a lot of surplus coffee and other things, including several dozen apple pies. And say, pieface, those pies were "some punkins"; one fellow said his was a peach, but it was all apple. A prominent druggist, who should know the danger of eating pie, brought three of them down town with him. The pies haven't been seen since, but said druggist maintains his usual good health and volubility.

However, while pies are pies, the firemen are all going to attend the convention wearing their best uniforms and cigarettes, and at the same time show the folks of the upper left-hand corner of the county some of the good things Clearfield has; by which we mean that the Fire Department will be accompanied to the convention by the American Legion band.

Now, fellow citizens, money makes the band play. The members of the band meet for rehearsals fifty-two times a year. This number is increased quite a bit when preparing

for a concert or something special. This week the firemen will solicit the necessary funds to take the band to the convention at DuBois, where it is expected they will capture first prize in the band contest. Let everybody help some, more or less, and make the band feel that it is appreciated.

CHILDLESS HOMES MADE HAPPY

Presence of Little Ones a Great Blessing

Four Interesting Letters

Cortland, N. Y.—"I took Lydia E. Pinkham's Vegetable Compound because I was weak and wanted to become strong and have a child. My husband read about it in the Cortland Standard and thought it might help me. It certainly did for I now have a lovely boy fifteen months old who weighs forty pounds. I recommend Lydia E. Pinkham's Vegetable Compound to my friends and you can certainly use my testimonial in your little books and in the newspapers, as it might help to make some other childless home happy by the presence of little ones as it has done mine."—*Mrs. CLAUDE P. CANFIELD, 10 Salisbury St., Cortland, N. Y.*

Married Three Years

Brooklyn, N. Y.—"I am certainly very thankful to you for your Vegetable Compound. I was married three years and did not have a child. My husband had often heard of Lydia E. Pinkham's Vegetable Compound and he made me take it and I became the mother of the healthiest little boy I know. When my friends tell me their bad feelings the first thing I say is, 'Take the Vegetable Compound.' I am willing for you to use these facts as a testimonial."—*Mrs. ANTOINETTE MARANO, 113 Nostrand Ave., Brooklyn, N. Y.*

St. Louis, Mo.—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me seven years ago. I was run down and had a weakness such as women often have. I took Lydia E. Pinkham's Vegetable Compound and after being married sixteen years became the mother of a sweet little girl. I now have four lovely children—three fine boys and the little girl six years old. I had longed for children all the while and wept many a day and envied every woman with a child. I was 36 years old when my first baby was born. I recommend Lydia E. Pinkham's Vegetable Compound to any woman who is ailing with female weakness."—*Mrs. J. NAUMANN, 1517 Benton St., St. Louis, Mo.*

Was Weak and Run Down
St. Louis, Mo.—"My mother took Lydia E. Pinkham's Vegetable Compound when I was a girl, and when I was troubled with cramps I took it, and later when I married I again took it to make me strong as the doctor said I was weak and run down and could not have children. I took it and got along fine and now I have three girls. So you know why I keep the Compound in the house. I am a well woman and do my work and sewing too."—*Mrs. JULIUS HARTMAN, 2501 W. Dodier St., St. Louis, Mo.*

IF YOUR TRUCK ISN'T WORKING RIGHT WHY DON'T YOU BRING IT HERE?

Making trucks work right is the every day work of this place and you'll find that truck owners who have been doing this are getting a full day's work out of their trucks every day.

You invested money in your truck and you will want to get your money out of it through the medium of lowered delivery cost, but won't unless you keep that truck working all the time.

The trucks we are servicing are going every day. Yours will too, if you bring it here for service.

Hupmobile Reduces Prices

Effective August 1st.

In keeping with the trend of the times the HUPMOBILE automobiles are reduced in price.

Always in the forefront with lines of economy in production, always among the leaders of modern automobile design, always keeping in the van with the trend of the times, this reduction now places the HUPMOBILE in the light of a much better car for a popular price.

The announcement will be welcomed by hundreds who have been awaiting the welcome news and now you may have this wondercar at a really popular price.

JORDAN'S

CLAYSBURG BRICK PLANT SOLD FOR MILLION AND HALF

The General Refractories Company, which has long had a plant at Blue Ball and another at Sandy Ridge, the corporation virtually beginning business with the Blue Ball plant, has just purchased the Standard Refractories plant at Claysburg, paying \$1,500,000 for it.

William Sproul, Governor of Pennsylvania, is president of the General Refractories Company, which has a large plant at Sproul, Blair County, the town getting its name from the president of the company. The corporation recently purchased several other plants, which are being merged into one company and will have an output in excess of their silica brick plants. The company has a five year contract with the steel corporation, guaranteeing full capacity operation for all its plants.

Fire Tree.

One of the most extraordinary of Australian trees is the "fire tree," which is common in New South Wales. When in full bloom it is a mass of flame-colored flowers, and looks at a distance like a tree on fire.

Texas "Midway City."

San Antonio, Texas, is nearest "midway" on the southern route from New York to San Francisco. It is 1,943 miles from New York city and 1,811 miles from San Francisco.

Porch Frocks

Porch frocks have become charming affairs of printed mousseline de fine, voile, ratine, cotton crepe, tulle or canvas. Often they're trimmed with hemstitching or rawn work.

Friends an Expensive Luxury.

Friends are an expensive luxury; and when a man's whole capital is invested in a calling and a mission in life, he cannot afford to keep them. The costliness of keeping friends does not lie in what one does for them, but in what one, out of consideration for them refrains from doing. This means the crushing of many an intellectual germ—Letter, Insen to Brandes, 1870

Chalmers' Recipe.

The grand essentials of happiness are—something to do, something to love and something to hope for.—Boston Transcript

PUBLIC HEALTH IS IN GOOD SHAPE OWING TO CO-OPERATION

According to the records of the local Board of Health, Clearfield has been much freer from disease during the even months just past than for a similar period during 1921. The total number of communicable or contagious diseases reported to the Board of Health during the seven months of 1921 was 380, while for the seven months of 1922 but 274 cases were reported.

This is indeed a satisfactory showing and is attributable, Secretary Gaulin says, largely to the fact that our people are obeying the rules of the Health Board. One highly gratifying feature of the report is the fact that while there were five cases of typhoid fever in 1921, not a single case has been reported this year, thanks largely to the strenuous measures used to stamp out possible causes of infection during the latter part of last year.

Comparative Figures For the Two Years.

Comparison infections and quarantined disease for the first seven months of 1921 and 1922:

Disease	1921	1922
Scarlet fever	38	7
Diphtheria	36	28
Chicken pox	116	23
Typhoid fever	5	0
Measles	150	189
Mumps	21	46
Whooping cough	14	26

Totals

Three Scourges Being Curbed.

In reading the above figures kind-

ly note the difference for the better concerning scarlet fever and diphtheria, the terrors of childhood, and typhoid fever.

The Board of Health naturally feels gratified over this showing, and offer the suggestion that Clearfield people be careful regarding the water they drink from springs in the woods and along the roadsides when traveling or on vacation. Many times these springs are sources of contagion.

Be Careful of Waste Matter.

The Board also advises against the throwing of waste vegetable matter in backyards or in the alleys. Use lots of lime around your premises. Remember, that an ounce of prevention is worth a pound of cure and don't forget to swat the fly.

Born, to Mr. and Mrs. Manuel Kado of West Locust Street, a nine pound girl yesterday morning.

No heat with this summer meal

A DISH of crisp, delicious Grape-Nuts, with cream or milk (some berries or fresh fruit, too, if you like) is cooling to serve, cooling to eat and cooling to digest—with a charm of flavor and goodness that rouses appetite enthusiasm. No preparation, no cooking—no heating of the body afterward, as heavy, starchy meals do—but well-rounded nourishment for every bodily need.

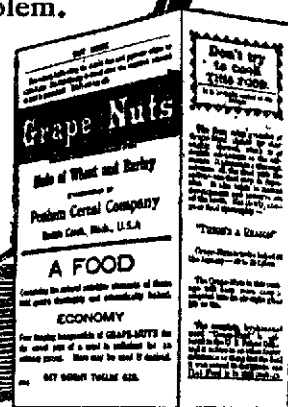

There's a noticeable feeling of lightness and comfort after such a meal.

Try this way out of the heat, bother and uncertainty that usually goes with the midsummer food problem.

Order Grape-Nuts from your grocer today.

Gossip For Tonight's Tea Table

Mr. and Mrs. Frank W. Short and son John F., 2nd, of Philadelphia are guests at the home of Editor John F. Short on Market Street at present.

Miss Jane Graft attended a dance at DuBois last evening.

Mr. and Mrs. John R. Gearhart and family will leave tomorrow morning for Atlantic City and expect to spend the coming two weeks on a motor trip along the Atlantic Coast.

These are striking times and Babe Ruth is doing his part.

Miss Betty Ruth Litz will leave Clearfield today to spend two weeks with friends at Olanta.

She will also visit friends and relatives at Surveyor.

Mrs. Hollenback of Philadelphia is visiting her sister, Mrs. Harry Brown, on Turnpike avenue.

Mr. and Mrs. C. E. Weeks of Shanghai, China, who have been visiting L. A. Banta and family, left for Washington, D. C., Monday. Mrs. L. A. Banta, sister of Mrs. Weeks, accompanied them.

Mr. and Mrs. William J. Sencer and Mr. and Mrs. Herbert Sencer have returned from a motor trip to Pittsburgh, after visiting friends and relatives.

Elinor Forsythe, who has been suffering the last three weeks, was taken to the hospital on Monday evening and had her arm operated on and is getting along nicely.

Mr. and Mrs. George Taylor, who had been visiting at the home of his brother, ex-Tax Collector Ed R. Taylor on Walnut street for the past week, left this morning by automobile for their home in Dayton, O.

J. A. Ritter and family, of Olanta, spent Sunday at the home of D. D. Long.

D. D. Long and little sons, Merritt and Homer, motored to Olanta on a business trip.

Hyman Mirkin, of Steubenville, Ohio, is visiting at the home of his uncle A. Mirkin on South Second street.

Miss Amelia Chorpensing is visiting friends in Harrisburg.

Miss Ruth Rowe is spending a few days at Indiana among friends.

Mrs. Ralph Myers has been confined to her home for the past two weeks with rheumatism.

Mrs. Annie Merat of Meadville spent a few days with her brothers in Frenchville and on the return trip home, stopped between trains with her cousin, Mrs. Ralph Myers. Mr. Merat expects to be transferred to Chicago in the near future.

PENNA. 44 BREAKS ALL RECORDS OVER AT WARRIORS MARK

The wheat of the wheat variety test conducted on the farm of C. A. Geist, near Warriorsmark, has been threshed and the results are given below:

Rank	Variety	Per Acre	Glumes
1.	Penn'a. 44	37.4 bus.	Bearded
2.	Leaps Prolific	32.0 bus.	Smooth
3.	Harvest King	30.8 bus.	Smooth
4.	Fulcaster	30.1 bus.	Bearded
5.	China (B. S.)	29.1 bus.	Smooth
6.	Reliable	27.0 bus.	Bearded
7.	Red Rock	26.8 bus.	Bearded
8.	Check	25.7 bus.	Bearded

This test was conducted last year and records kept of the productions. More confidence can be placed in an average of two years' results than in just one. The average yield for the two years appear below:

Rank	Variety	Average Yield
1.	Penn'a. 44	28.8 bus.
2.	Leaps Prolific	29.9 bus.
3.	Fulcaster	25.2 bus.
4.	Harvest King	24.7 bus.
5.	China (Blue Stem)	24.45 bus.
6.	Reliable	24.6 bus.
7.	Red Rock	23.2 bus.
8.	Check	22.8 bus.

Results similar to the above have been secured in several counties throughout the state and variety tests such as the above have served to demonstrate to wheat growers the importance of careful selection of seed. There is much Fulcaster wheat grown throughout Huntingdon county. "Pennsylvania 44" on the two-year average has shown an increase of four bushels per acre. This four-bushel increase per acre will reduce the cost of producing a bushel of wheat under present cost prices by at least twenty cents per bushel. This lowered cost calculated on the 350,000 bushels of wheat produced in Huntingdon county annually, according to the census, will represent a saving of \$76,000. There are 2,111 farms in Huntingdon county, so that the saving would mean an average of \$36 per farm.

Those who do not have "Pennsylvania 44" wheat and wish to get some may probably do so by getting in touch with the county agent at Huntingdon. There is getting to be considerable wheat offered on the market under the name of "Pennsylvania 44." There may be an opportunity for misrepresentation of seed wheat. The county agent has been locating the genuine "Pennsylvania 44" seed wheat in the county during the recent harvest season.

Catch A Cold With The Change?

This storm period and the chill wave that followed is going to bring a lot of colds. Bring us that cold and we'll show you how to knock the spots out of it in a short time with our cold remedy.

NUMBER 165

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., WEDNESDAY EVENING, AUGUST 9, 1922.

EYES OF NATION TURN TOWARDS CLEVELAND

MAIN CONFERENCE MAY NOT BEGIN UNTIL TOMORROW

Cleveland, O., Aug. 9.—A national conference of the bituminous coal strike through conference of leaders late today or tomorrow became more probable this afternoon when it was known that John L. Lewis had received assurance that some Southwestern operators will approve any action taken here.

A split in the ranks of the operators of Oklahoma, Kansas, Missouri and Arkansas fields was indicated on account of this advice. The Southwestern Interstate Operators' Association yesterday refused to take any part in the parley.

High hopes that operators in other fields who have not come to the conference would accept the agreement were held out by the miners' spokesmen. The main conference, it was learned, may not begin until tomorrow in view of this development.

THOMPSON, HARDING CHOICE, LEADS FOR GOVERNOR OF OHIO

Columbus, Ohio, Aug. 9.—Carmichael Thompson, Republican candidate for nomination for Governor of Ohio, and the candidate having the support of the Harding Administration, was swept into the nomination with 60,000 votes over his closest rival, Congressman C. L. Knight, unofficial returns from 5000 of the State's 8167 precincts indicated today.

The vote is Thompson 97,672, Knight 41,137, Durand 31,979. Thompson's lead continued to grow as reports poured in from tardy counties. Donahay, Democratic candidate, was nominated for Governor by 12,000 votes over both of his opponents, T. J. Duffy and James C. Johnson, returns from the same number of precincts indicated.

M'RAE NOMINATED TO SUCCEED SELF IN ARKANSAS PRIMARY

Little Rock, Ark., Aug. 9.—Governor Thoms C. McRae was apparently nominated to succeed himself in yesterday's state primary, according to returns tabulated today. In Pulaski county where Little Rock is located, the Ku Klux Klan has apparently nominated its entire ticket by a substantial majority.

Brandon Wins in Alabama.

Birmingham, Ala., Aug. 9.—Winning by a vote which may run higher than four to one, J. W. Brandon, of Tuscaloosa, was nominated for governor in yesterday's Democratic primary, scattering returns today showed.

GREENVILLE WILL START BUILDING BIG STEEL PLANT

Greenville, Pa., Aug. 9.—A steel plant to be known as the Greenville Steel & Iron Company is to be erected here at a cost of \$2,500,000, the Greenville Chamber of Commerce announced today. The proposed output is 165,000 tons of steel. Operation probably will start in the spring, according to present plans. The officers of the new concern are former executives of the Carnegie Steel Company.

STRENUOUS BUSINESS BEING MEMBER OF BORO COUNCIL AT PUNXSUTAWNEY

Over at Punxsutawney the office of Town Councilman is a real he-man's job, and judging alone from the reports of the semi-monthly meetings, as published in the town paper, a Councilman veritably takes his life in his hands when he sallies forth to mingle with the other "good men" and true (or false and crooked), as the case may be, who have been chosen by the proletariat to do their legislating and spend their money for them.

It has reached such a stage over in "Groundhogtown", we are told, that before starting for the Council Chamber each Councilman slips a handy-billy or a pair of "steel knuckles" in his pocket, brushes off his insurance policies and turns them over to the wife of his bosom, kisses her and the children—and sometimes the cook—goodbye and departs hence to "do" or "be done" by his fellow Councilmen.

If you don't believe it read what last night's Punxsutawney Spirit says of Monday night's "getting together" by the "Borough Fathers":

"Of all the regular meetings of Council, last night's was the regularity of them all. From beginning to end there was constant bickering and

TERMS BY WHICH LEWIS WILL TRY FOR SETTLEMENT

It was believed that the bituminous controversy will be settled on the following basis:

First.—Renewal until March 31st, 1923, of the wage agreement which expired March 31, 1922.

Second.—Continuation of the check-off system (deduction of union dues from miners' pay) to be turned over to the union.

Third.—Appointment of a commission of miners and operators to investigate the mining industry and make reports upon which future wage agreements will be based.

Fourth.—Agreement to begin negotiations for a new wage scale several months before the end of this agreement in order to prevent another strike.

The strategy of John L. Lewis is apparent in the announcement that the tonnage to be represented at the parley now totals more than 100,000,000 tons in comparison with 69,000,000 tons on Monday.

HAS THE COAL BUT CANNOT MINE IT; COURT TO DECIDE

Some years ago at a tax sale the coal under or supposed to be under the Bunchko place at the foot of the mountain between the Rockton and Penfield roads was sold at tax sale and as everybody considered there was no coal there, but little attention was paid to it, with the result that the late James Nolan, Esq., of Chester Hill, got title to the coal right under the 275 acres for a song.

Nothing more was thought of the matter and several years later the surface was sold at tax sale and to a Mrs. Bunchko and she has been home for her for the few remaining years of her life, the County Commissioners bought in the property, entered the taxes as a lien against the farm and allowed the old woman to remain unmolested. The accruing taxes were charged up in a similar manner until two years ago when an agent of Mrs. Bunchko sold the farm to John F. Leitzinger, who has

(Continued on Page 5.)

SYMPATHY STRIKES DEVELOP IN RAIL WAGE DISPUTE

Sympathy Strike Begins—Chicago, Ill., Aug. 9.—Thirteen hundred Big Four brotherhood men, on the Elgin, Joliet & Eastern Railroad, at Joliet, were on strike today in protest against troops guarding the right of way. The strikers included engineers, firemen, conductors and trainmen. Switchmen were expected to join the strike today. The E. J. & E. is an outer belt line serving the industrial town, in the Chicago switching district. Union leaders declared the strike was the most important sympathetic move since the shopmen's walkout started.

Join at Wilkesbarre—Wilkesbarre, Pa., Aug. 9.—One hundred and fifty maintenance of way employees on the Central Railroad of New Jersey, employed at Ashley, walked out on strike at 7:30 this morning. The men were members of the maintenance of way union but believed their work of cleaning fires and working in the shopmen's places brought them under the jurisdiction of the shopmen's organization and so voted to strike.

Stone's Statement—Cleveland, Ohio, Aug. 9.—Warren F. Stone, President of the Brotherhood of Locomotive Engineers, today issued the statement that negotiations for a settlement of the bituminous coal strike in fifty other places when informed that brotherhood members employed by the Elgin, Joliet & Eastern Railroad had walked out. The guards and members of the State Militia have threatened them and made the situation there so intolerable that it was probably impossible for them to remain at work any longer, Stone said.

"Farmers' Quit." Paterson, N. J., Aug. 9.—Nearly 250 workers of the Cooke Plant of the American Locomotive Company here are out today in protest against making repairs to locomotives of the Erie Railroad, on whose lines the shopcraft men are on strike. The men who quit work voted several days ago to do no work ordinarily done by the shopmen now on strike.

Gleason Motion Denied—Pittsburgh, Aug. 9.—A motion by Attorney James A. Gleason of DuBois to dissolve the restraining order against the seven railroad labor organizations of the Buffalo, Rochester & Pittsburgh Railway Company was denied by Federal Judge Gilson today. During the argument which consumed the entire morning Attorney Gleason who is counsel for the Union, received a special delivery letter notifying him of a fire in the DuBois Shops last night. The letter stated that the emergency firemen responded and extinguished the blaze.

BUMPER CROP SURE INDICATED BY GOVT. REPORT

Washington, Aug. 8.—Bumper crop production in general this year, resulting from highly favorable growing conditions, was indicated by the government August reports. A three-billion-bushel corn crop for the fourth time in the history of farming was forecast.

A record crop of hay totalling 93,100,000 tons is being harvested, surpassing the record made in 1919 by 1,300,000 tons.

The second largest crop of white potatoes ever grown was reported, the total being 440,000,000 bushels or 2,000,000 less than the record crop of 1917.

Blessings of Stumber. Now, blessings light on him that first invented this same sleep! It covers a man all over, thoughts and all, like a cloak; it is meat for the hungry, drink for the thirsty, heat for the cold and cold for the hot.—Cervantes.

OPERATORS OF TWO BIG FIELDS REFUSE TO MEET MR. LEWIS

Cleveland, Aug. 9.—Expectation of a settlement of the soft coal strike on a national scale vanished last night among the union officials and operators here with the receipt of reports of the failure of Indiana and Illinois Operators Association to agree to join the conference. The hope, however, was held out that settlement affecting scattered mines in Indiana, Illinois, Ohio and Pennsylvania and possibly West Virginia may result from the conference which reconvenes tomorrow.

President John Lewis, of the miners, announced that the joint conference would re-assemble to open negotiations. The question, however, of whether the miners would be willing to make an agreement with the operators now here was undecided and indications were that a decision would be deferred until after the afternoon meeting with the operators, mostly from Ohio. A few operators also are here from Pennsylvania, Indiana and Illinois.

Confidence, however, was expressed by some that the number of operators willing to make a settlement was sufficient to make a break. Some West Virginia operators were expected to join in on the conference.

Will Not Attend. Terre Haute, Ind., Aug. 8.—The Indiana Coal Operators Association will not attend the Cleveland conference called by President Lewis, it was announced following a meeting of the state committee.

A. M. Ogle, president of the National Coal Association, who is also an Indiana operator, said he would not go to Cleveland and said that hope for a settlement at that place was small.

May Make Separate Peace in Illinois and Indiana

Chicago, Ill., Aug. 9.—A separate peace in the Illinois and Indiana coal fields was forecasted today and predictions were made that a settlement was close at hand. These rumors were given strength by reports from the coal districts of these states that preparations were being made to start work at the mines. A despatch from Marion, Indiana, declared that several hundred men had been called to prepare five mines for reopening in Williamson county.

Lucky Man Always a Worker. When a miner lands a nugget, folks usually say that he is lucky. But it isn't luck. The miner went for nuggets where they were—and dug, and dug, and dug. When you land a prize it is because of work—and brains. The possessor of good luck is a worker.

Today's Wise Word. "Not a having and a resting, but a growing and a becoming, is the character of perfection."—Matthew Arnold.

LITERARY EFFORT OF SURVEYOR MAN LANDS HIM IN BOUDOIR NO. THIRTEEN

Literary effort when directed along right lines is something to be proud of but when misdirected it usually spells trouble for the author or wielder of the pen. At least that is the conception of one Harry Stuller of Surveyor, who now occupies Boudoir No. 43 down at Tom Lowell's haven of rest.

On July 10th Stuller is alleged to have taken his pen in hand and drawn a check for \$25 to the order of Amos Wall, signing the name of Miles Woodlee to the check. Being proud of his penmanship Stuller then endorsed the name Amos Wall on the back of the check and to show that he played no favorites also put the name of the alleged drawer of the check on the back thereof as an evidence of good faith.

CAR AND OCCUPANTS GO OVER HOG BACK BRIDGE LAST NIGHT

The kind fates which look after auto wreck victims in these parts were working overtime last evening on the Clearfield-Curwensville state road, when the auto driven by Jack Gray, of Carnwath, went through the side of the wooden bridge over the Pennsylvania railroad tracks at Hogback and after hanging suspended momentarily toppled over and dropped twenty feet or more straight down into the railroad.

The accident occurred about 6:45 o'clock. The car was occupied by Mr. Gray, his wife, Mrs. Abner Smith, a man named Durwyn Hunter and Evelyn Gray, 8-year-old daughter of Richard Gray, all of Carnwath. They had been visiting at the home of James Gray and Alex Hynd on South Second street during the afternoon and were on their way home to Carnwath.

They traveled up the state road and attempted to turn off about half way up Hogback hill for the purpose of taking the cross-over to the Glen Richey road. There was a large mud hole at the junction of the dirt road with the state road and when Mr. Gray swung his car off the concrete the rear wheels slid over into this mud hole, throwing the front end of the car over against the right side of the bridge. Springing his steering wheel, Mr. Gray turned the car so quickly that it shot across the bridge and broke through the railing on the left-hand side. A projecting timber caught and held the car suspended over the twenty-foot drop and it was so evenly balanced that it teetered there possibly twenty seconds before it plunged over to the bottom of the cut.

Alex Hunter and several other Carnwath people were following the Grays and were close at hand when the accident occurred. Mr. Hunter said the car was so evenly balanced as it hung suspended over the side of the bridge that five pounds more weight on the rear would have prevented it from going over.

Mr. Hunter and his party, Mr. and Mrs. Lloyd Kracht of Clearfield, who were also near the scene when the accident occurred, clambered down the bank and assisted the occupants of the Gray car out of the wreck. It had apparently landed on its nose and then toppled over on its side.

Mrs. Gray had an arm broken in two places, with other minor bruises and was severely shocked. Mrs. Smith suffered from shock and minor bruises. Mr. Hunter had his face slightly cut and scratched, while Mr. Gray and little Evelyn were uninjured. How the entire party escaped much more serious injury is but another of those mysteries which appear to follow recent automobile accidents in this section.

Mrs. Gray and Mrs. Smith were (Continued on Page 6.)

GOVERNMENT KEEPS CONGRESS ON JOB FOR STRIKE DUTY

Washington, D. C., Aug. 8.—President Harding has practically ordered all members of the House to be back on the job August 15th so that he may turn to them for any legislation he feels is necessary in the handling of the coal and rail strikes, it was made known at the White House today. The original plan was for a few members to return next Tuesday and then take three-day recesses until the Senate took final action on the tariff bill and other measures. The President's action, therefore, virtually amounts to summoning the House, which has been in recess for about a month, back to Washington to meet any emergency that may arise. Believing that the coal and rail strikes are serious, President Harding suggested to the House leaders that they abandon their plan of three-day recesses after August 15. The White House made it known that President Harding feels there is an undervaluing of the seriousness of both situations. The Executive's action was taken as an indication that he will not hesitate to take over the railroads or mines should such action be necessary for the public welfare.

Washington, D. C., Aug. 9.—President Harding next week will place before Congress for approval the Government's plan for seizure of certain railroads and coal mines if the twin strikes show no signs of breaking down by that time. Administration officials stated today that the administration has abandoned hope of settling the rail strike but is still hopeful, although not confident, that the coal strike will be settled soon. President Harding desires the presence of the House members in Washington for any emergency measures he may find it necessary to take. Although the executive now has authority to take over the railroads or the mines when he believes that conditions would warrant such action, President Harding desires Congress' sanction of such a drastic step and in order to be completely prepared to meet any emergency the President has summoned all members of the House back to Washington.

Small Riot at Nanticoke—Nanticoke, Pa., Aug. 9.—State troopers, deputy sheriffs and coal and iron police clashed today with idle miners and sympathizers here in a mine riot. One man was sent to the hospital with a deep scalp wound and half a dozen others suffered minor injuries.

Commission Named. Harrisburg, Aug. 8.—Governor William Sproul tonight named a fuel commission of seven members. He directed them to organize as soon as possible.

Chairman W. D. Ainey, of the Public Service Commission, was named as chairman, others being James W. Ann, Philadelphia; William Furey, president of the Pittsburgh Chamber of Commerce; Edgar C. Felton, Haverford; Representative Hugh Dawson, Scranton; S. B. Crowell, Philadelphia; William Wreh, Erie.

The commission will have its headquarters here and Messrs. Ainey and Bann will go to Washington tomorrow.

Indiana May Use Convict Labor. Indianapolis, Ind., Aug. 9.—Convict labor will be rushed into Indiana coal fields to dig coal under martial law if all other state plans to break the fuel famine fail, Governor McCray indicated today.

An Egotist's Imagination. Jud Tunkins says that only an egotist imagines he can make his own little hard luck story interesting to anybody.

C. A. PIERCE, WAR VETERAN, WILL BE NEW "Y" SECRETARY

The Board of Directors of the Young Men's Christian Association at a recent meeting accepted the application of Mr. C. A. Pierce for the position of general secretary of the Association to fill the vacancy caused by the resignation of C. Edwin Cook who accepted a similar position at Blairville, Pa., on July 1. Mr. Pierce is an experienced "Y" man having been in the work for the past ten or eleven years. During the war, he was engaged in Association work in the army camps for a time. He then enlisted as a machine gunner and spent the remainder of the period on the fighting front. He comes to us from West Chester Y.M.C.A., at which place he has been serving as General Secretary for the past three years. He will assume his duties here about September 1st.

Usefulness First Requisite. Whatever has nothing to do with ornament; it is definitely and abundantly.—Ruskin.

ODDS AND ENDS AND THINGS

By J. D. C.

We hear a whole lot of hot air these days relative to what the wets are about to do toward repealing or amending the Volstead Act, and as we surmised the other day, a whole lot of people are telling what is going to happen to the law, due to the change in sentiment among the voters, but we notice at almost every primary—the Missouri senatorship excepted—the candidate who runs on a wet platform invariably "falls outside the breastworks," so to speak. The latest victim of this wave without votes is Durand, a pronounced wet, who came out a very bad third in Tuesday's battle for the Republican nomination for governor of Ohio.

This being the season for drownings and so many occurring almost daily throughout Central Pennsylvania, it might be well for everybody to read carefully the following instructions relative to the method to pursue in the case of attempting resuscitation of a victim of the water, which is offered by Uncle Sam's Public Health Service:

Uncle Sam has come to the fore with the latest official method of resuscitating a drowning person.

"Now that the antics of the merry boat rockers and the incautious canoeists are cluttering the pages of the newspaper with detail of numerous accidents," said an official bulletin of the Bureau of Mines, "interest attaches to instructions just issued by this bureau for resuscitation in cases of drowning."

As soon as the victim is taken from the water, the instructions say, place him face downward, clasp your hands under his stomach and lift him several times, letting his face hang down so as to drain his mouth and throat.

"Then," the instructions continue, "remove from his mouth any foreign bodies, such as tobacco, false teeth or gum. Do not stop to loosen his clothing. Do not carry him any distance. Do not wait for a doctor. Tread him yourself by artificial respiration methods, as follows:

Lay Victim on Stomach. "Lay the victim on his stomach with his face to one side so that his nose and mouth are free for breathing. Place one arm straight out beyond his head, the other under his head. This position is important as it helps to expand his lungs. Have the head a little lower than the body."

"Kneel, straddling the victim, thighs and facing his head; take the victim's hands on his chest with your thumbs resting with the spine and about two inches apart, and with fingers spread out as much as possible."

"With arms held straight, swing forward slowly so that the weight of your body is gradually, but not violently, brought to bear upon the victim. This act should take about two seconds. Then, leaving your hands in place, swing backward slowly so as to remove the pressure, thus returning for two seconds to your first position."

The swinging forward and backward process, the instructions emphasize, should be repeated deliberately at least fifteen times a minute, a complete respiration in about four seconds. The movements should be kept in time with your own breathing.

Continuing, the instructions say:

Draw Tongue Forward. "While the artificial respiration is being continued, have an assistant draw forward the victim's tongue, if it has fallen back. Hold it by the tongue out if it tends to draw back by wrapping a handkerchief around it. The handkerchief may also protect the assistant's fingers from being bitten. The assistant should also loosen any tight clothing around the victim's neck, chest or waist."

Do not permit bystanders to crowd about and shut off the victim from fresh air. Keep the victim warm with proper coverings and by placing beside the body hot bricks, bottles or rubber bags filled with warm (not hot) water. Wrap bricks, bottles or bags so as to prevent burning the victim. Continue the artificial respiration without interruption until natural breathing is restored, or for at least three hours. If natural breathing stops after being restored, use artificial respiration again."

The victim should not be given any liquid by mouth until he is fully conscious, the instructions warn.

Eliminating Danger From Fumes. Fumes from chemical plants have been one source of many damage suits. Chemical engineers today are making many successful experiments which will ultimately lead to the elimination of all such fumes. Smelter fumes are being recovered and made into sulphuric acid.

Relieves Monotony of Life. Everything may be terribly cut and dried certainly by a married woman, except this: She never knows what her husband will get mad at next.

EJECTMENT SUIT IS BEGUN

An action of ejectment was begun in Prothonotary Ralston's office this morning by Miller & Hartwick on behalf of the Thomson-Lea Coal Mining Company, which concern seeks to recover possession of a house and lot owned by them in the village of Elton, Chest township, now occupied by Peter Welch. The statement filed recites that the Thomson-Lea Co. on Jan. 1, 1922, employed Welch as a mine foreman at a salary of \$200 per month and he moved his family into house No. 27 owned by the company at their mines at Elton. On June 1, 1922, Welch severed his connection with the coal company but still occupies the property and this suit is brought for the purpose of ejecting him.

Enjoyment in Chasing Knowledge. Our remote forefathers chased knowledge, so to speak, through the heavens and over the earth on a big piggyback, and they doubtless wasted good deal of time, but they enjoyed a fine exhibition, beyond any they could have got in chasing it down a rathole like a weasel.—Robert M. Gay

Revelation Brought by Age. The longer we live and the more we think the higher value we learn to put on the friendship and tenderness of parents and of friends.—Doctor John son.

"Mrs. Grundy" was the name of a lady in Thomas Morton's "Speed the Plow," a play written in 1798. Like Dickens' Mrs. Harris she was not a real character in the play, but everybody in the play who tried to do anything that was not proper was told that "Mrs. Grundy" wouldn't like it. The expression is generally used to mean the power of other people's ideas of what is right and proper to control our own actions.

Fine Medieval Buildings. There are many remains of Roman buildings in different parts of Europe. Their bricks are much smaller than ours, more like the modern tiles in shape. The workers in England called them (we have all heard of Wat Tyler) were probably brickmakers. Two fine examples of brick architecture in the England of medieval days are Hampton Court and Lambeth Palace, London.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

MORE CARS THAN EVER

With 44,829 more passenger cars registered in Pennsylvania up to August 1st than during all of last year, it is evident that the "saturation point" the experts are always talking about in connection with the automobile industry is still far from being reached. In a single recent month Detroit factories sold over 200,000 cars.

The total Pennsylvania registration of passenger cars on August 1st was 677,370 and the institution of the half-rate for licenses for the rest of the year should mean many thousands more before 1922 is ended. Last year a total of 10,449,785 motor vehicles were in use in the United States, a gain of 1,517,327 over 1920. In proportion of cars to population California was in the lead with one for every 5.19 persons, or almost at the rate of one for each family. The national percentage was one car to 10.10 persons.

The United States is virtually the only country in the world where the automobile has been removed from the "luxury" to the "necessary" class.

A highly significant statement was made by an American employer the other day with regard to the fixing of pay for employees. He said that in figuring their necessary expenses, their "fixed charges," the cost of keeping at least a small car had to be taken into consideration. There is no truer saying than that the luxuries of yesterday are the necessities of today. It is noticeable that the term "pleasure car" is less used than formerly. The automobile is as much a vehicle of recreation as ever and touring is increasing in popularity, but its practical use is paramount and so recognized.

The automobile industry never had more solid grounds for counting upon continued prosperity, greater than it has ever known.

LOST IN PENNSYLVANIA WILDS

It doubtless would strike those not familiar with Pennsylvania as strange that anyone other than a child could get lost in the woods of this state of nearly 9,000,000 people. One of the oldest states in the Union, with settlements in nearly every section for at least a century, and with all but a small part of the virgin timber gone, Pennsylvania, it would seem, was one of the last regions in the United States where it was possible for adults to lose their bearings and wander aimlessly in the woods for more than an hour or two at most. Yet cases are not infrequently reported of grown persons being lost over night.

In Sullivan county a few days ago a Philadelphia art student, a veteran of the World War, accompanied by a young woman, started on a hike into the woods. They became lost and were unable to find a trail which would lead them to civilization. When they failed to return that night to the town from which they had set out the church bells were rung in the hope of guiding them back, but to no avail. They were out all night. The next day a posse of 100 men combed the hills and woodlands and finally found them, exhausted after a day and night of wandering.

It is not necessary to go to Canada or the Far West to find the wilderness. Though they are protected during all but a short season more bears are killed in Pennsylvania each year than in many of the supposedly wilder western states—another evidence of the existence of large stretches of wilderness.

Those seeking wild country in which to spend a vacation will have no trouble in finding what they want in Pennsylvania.

BURGLARY INSURANCE

Twenty-six companies have issued, jointly, a \$26,000,000 burglary insurance policy, covering securities for which the state treasurer of Pennsylvania is responsible. It gives the state protection against loss for three years at a cost in premiums of something more than \$32,000.

The transaction is an unpleasant commentary on the times. Burglary insurance is steadily increasing in favor. One would suppose that a commonwealth like Pennsylvania would be able to protect itself against theft. But it is well to take no unnecessary risk. Extraordinary daring and resourcefulness are shown by the up-to-date robber. He does not hesitate to attack trains, banks, postoffices and stores, even in broad daylight, with hundreds of persons looking on.

HELPFUL ASSISTANCE FOR THE BUSINESS MAN

More than fifty years ago the County National Bank was organized in Clearfield.

It has seen more than half a century of development in the Clearfield District.

Many of the prosperous business houses of the district owe their success in part to the assistance of the County National.

The helpful service of the bank is offered to business men who wish a connection with a strong commercial bank.

CURWENSVILLE

D. L. Irvin left Tuesday for a business trip to New York and Boston.

Mrs. Clark Boyer of Akron, Ohio, has been visiting Mr. and Mrs. Arthur Robinson for several weeks.

J. M. McKinley, accompanied by Mr. and Mrs. D. J. Hopwood motored to Pittsburgh Monday.

Mrs. Rhoda Fullerton arrived home Monday evening after spending several months with her daughter Mrs. Richard Patterson of Philadelphia.

Mrs. W. A. Thompson and Miss Alice Harley shopped in Clearfield Monday afternoon.

Mr. and Mrs. David Dunn, left Tuesday for their home in Pittsburgh.

Jimmie Sheridan, our popular sweet shop and cash groceryman has invested in a new Ford truck to aid him in his increasing business.

Miss Jeanette Strickland who has been visiting in Buffalo, N. Y. for several weeks returned home Tuesday.

Miss Margaret Hipps entertained a number of young people at her home on South Side Tuesday evening.

Mender Brunetti, Professor of Languages at the University of West Virginia, Morgantown, W. Va., is visiting his parents.

Mr. and Mrs. Will Wiley of Hyde City took in the picture "Way Down East" shown at the Opera House Tuesday night.

BIGLER

Mrs. Ira Haney of Clearfield visited her sister Mrs. Maurice Bush Sunday.

Mr. and Mrs. Verdon Michaels and son Jack of Kylertown and Mr. and Mrs. Dorris Michaels and three children of Kermoreau spent Sunday at the home of Mrs. Kate Michaels.

Mr. and Mrs. Ambrose Davis and Mr. and Mrs. T. Slinger of Winburne spent Sunday at the home of Joe Peters and Wayne Taylor.

Mrs. Lloyd Stevens and daughter Grace spent part of last week visiting relatives at Osceola Mills.

Mr. and Mrs. J. V. Knepp and family of Woodland and Mr. and Mrs. Charles Shugarts of Clearfield motored here and spent Sunday afternoon with the ladies mother, Mrs. Eva Williams.

Mr. and Mrs. Maurice Bush and the latter's brother, Charles Graffius, spent the past week at Dale's Hunting Camp at Lost Run. While there they saw four deer and three fawns and killed three rattle snakes. Mrs. Bush killed two, one of them having ten rattles and the other thirteen.

C. A. Walker and family have returned from a delightful trip to Atlantic City.

Mr. and Mrs. Jake Bumbarger of Wallacetown spent Sunday with their son Reggie and family.

Pat Waple is sporting a brand new Ford roadster.

Progress Want Ads Bring Results

SPECIAL AT MIDWAY

PHILIPSBURG

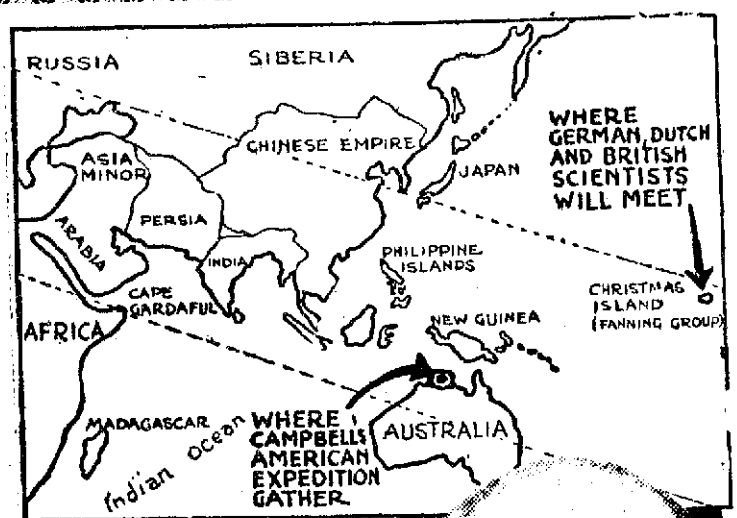

Thursday, Aug. 10th, Sunday, Aug. 13th, at 2:30 p. m.

The wonder girl, Virginia Stomm, of Balboa, Canal zone. Miss Stomm is the present high and fancy diving champion of the canal zone. She was a contestant at the official opening of Tex. Rickert's Madison Square Garden pool, New York City. She is the youngest member of the red, white and blue troupe of the canal zone.

Miss Stomm is 9 years and 3 months old. At 6 years of age she was awarded first prize for being the most perfect child, having 95 points out of 100, 5 points being taken off for 2 defective baby teeth.

Miss Stomm will do fancy and high diving, the Hippo swim and all other strokes.

SCIENTISTS TO RISK LIVES IN EXILE TO TEST EINSTEIN

By GENE COHN
San Francisco, Aug. 8.—The world of astronomical science is hurrying to remote spots of the South Seas and Antipodes where learned scientists will risk life and health—To trail a beam of light!

Two American expeditions already are under way, taking with them tons of the latest sky-searching apparatus and photographic equipment.

From Berlin is being rushed some thing absolutely new in telescopes, the work of years in the Zeiss plant at Jena, while a company of German and Dutch astronomers accompany it, headed by Dr. Joseph Hoppman. They are bound for a lonely spot on Christmas Island, in the Fanning group.

The Royal Astronomical Society of England also is sending its envoys to Christmas Island.

For Sept. 21 a total eclipse of the sun will be visible over a narrow ridge 100 kilometers wide, stretching from Cape Gardafue in Africa, through the Indian Ocean, and on the northwest coast of Australia.

Selection of sites for this spectacle are limited, for the tests and photographs to be made in connection with this eclipse are no other in astronomical history.

Test Einstein Theory.
Why? Because the men of science are to put the Einstein theory of relativity to its severest test.

What this test will be was explained to NPA Service by Professor W. W. Campbell, of Lick Observatory, who heads the American expedition, just before he sailed. The American party will make its observations from the remote 90-mile beach on the northwest coast of Australia.

"The thing Einstein has predicted," explains Professor Campbell, "is that

Map showing where scientists of three nations will test Einstein theory. Below, Professor W. W. Campbell who will head one of the American expeditions.

during this eclipse certain stars occupying a position in the sky near the sun will seem to be displaced slightly away from the sun.

"Absolute proof of the theory can be secured only during a total eclipse of the sun, for under such condition the light of the sun is hidden and it is then possible to photograph the stars in the sun's vicinity.

"What we are testing is one of Einstein's three leading deductions which is that the rays of light from a distant star undergo a noticeable deflection as they pass near the sun."

The coast of Australia for which the American scientists are destined is one of the most rugged in the world.

Where This Country Leads.
The fishing industry of the United States is not nearly as great as some of the countries of Europe, but no country in the world has had the foresight to stock its inland waters as the United States has done.

Hubby Couldn't Lie.
"Does your husband ever lie to you?" "Never." "How do you know?" "He tells me that I do not look a day older than I did when he married me, and if he doesn't lie about that I don't think he would about less important matters."

Potential Wealth for Argentina.
All the plants cultivated in Europe for the sake of their volatile oils will grow readily in some parts of Argentina and experiments show that they will give a yield of oil equal in quantity and quality to the European products.

French Popular in South America.
Throughout South America French is almost universally read; editions of the classics are in most homes and book stores are filled with modern French writers of prose or verse, both in translation and in the original.

Christian and Missionary Alliance

Gospel Tent Campaign Near B. R. & P. Station Clearfield

Beginning Thurs., Aug. 10th, at 7:30 P. M.
Sunday at 2:30 and 7:30 P. M.
Held by the Christian and Missionary Alliance.

Rev. Guy Gooderham of Clymer, Pa., will be the Evangelist for the first part of the campaign, assisted by Rev. Salvie.

Other speakers will be announced later. The Fullness of Christ will be preached. All the sinners and sick people are specially invited.

All Welcome.

DIGEST POLL STILL CREATES INTEREST THRUOUT NATION

The Literary Digest's poll on the matter of the enforcement or modification of the 18th Amendment and Volstead act has now reached the five hundred thousand mark and we give herewith the result of the third count reaching that total.

"It should be possible to form an accurate estimate of public opinion," predicted the New York Tribune, commenting on the tabulation of the first 200,000 votes in the Digest's national referendum on prohibition, "when the third or fourth hundred thousand are tabulated." With this issue a tabulation of some 480,000 votes is presented, and numerous publicists are ready with estimates of the state of public opinion which the ballots show. One outstanding fact about the poll continues to be the steadiness with which the earlier distribution of the vote between "wets," "moists" and "drys" has been maintained. The present tabulation, which may be said to show a fair number of returns from most sections of the country, reveals much the same state of public opinion as shown in the first, second and third tabulations. This showing, of course, is interpreted in different ways by different commentators.

Summary of 480,043 Ballots.
PROHIBITION.
Those in favor of the strict enforcement of the Eight-

eenth Amendment and the Volstead Law 181,704
Those in favor of a modification of the Volstead Law to permit light wines and beer 196,854
Those in favor of repealing the Prohibition Amendment 101,475

SOLDIERS' BONUS.
Do you favor a Federal Bonus for all soldiers and sailors who wore the uniform during the World War? Yes 233,813; No 241,440
A new factor, a real unknown quantity, will be introduced into the poll by the returns from a special poll of 2,000,000 ballots which the Digest has just mailed to women voters. It has been argued that women are predominantly "dry," and, with equal fervor, that they are not so. The votes from this number of women, selected at random from the voters' lists of cities, towns and country districts throughout the nation, should give a fair indication of the attitude of the women. Its introduction into the poll will help, also, to balance the general voting list so far used in mailing the Digest ballots, in which men have been in the majority. A careful figuring of percentages indicates that returns on a poll of 2,000,000 women will fairly balance, as between men and women voters, the complete referendum of 10,000,000 voters which is being taken.

Granting, however, there is an opportunity for a display of "dry" strength in this feminine vote, the factory polls which the Digest is taking continue to be extremely "damp." A careful poll of the establishment of Parke, Davis & Company, manufac-

turing chemists, of Detroit, shows the following results:
For enforcement 1,218
For modification 1,081
For repeal 1,211
This vote, with its ratio of 8 to 2 against the present laws, is not quite as "damp" as was the poll of the Edison works, summarized in these columns last week, with a ratio of approximately 20 to 1 against "bone dryness." Combining these two polls, the attitude of the workers in two representative factories may be summarized as follows:
For enforcement 211
For modification 2,059
For repeal 1,177

CLEARFIELD MACHINE SHOPS
Warehouse Department

Col. Fred R. Lee and E. L. Connelly left this morning for New York where they will attend a big Democratic meeting which will be addressed by John A. McCardenas, candidate for governor.

SALE OF BOOKS

We have just unpacked a fresh shipment of books on which the copyright has been lifted. They are probably just what you have been waiting for and you'll find the titles to include:

- "Kluge of the Desert"
 - "The Ship"
 - "The Three Musketeers"
 - "A Bachelor's Dream"
 - "Dance of the Dancers"
 - "What a Man's a Man"
 - "Hillside Trail"
- Why not buy several of these to take on your vacation? The price is so low.
- 7c**
Kirk's Stationery

"FIRST-AID COTTON"

This is the handy package that has come out for a long time. It is made of long fibre cotton that has been made thoroughly antiseptic. The package is so arranged that you simply pull out what you need for the present and the balance remains in the package and is kept antiseptic. Quarter-pound packages.

It's Carbonated.

"DON'T BET"—THAT'S STRAIGHT TIP FROM FAMED JOCKEY

FRANK O'NEILL

Paris, Aug. 8.—Here are some tips "straight from the feedbox"—from the American jockey, Frank O'Neill, premier rider of French race tracks, and regarded as the greatest jockey in the world.

Says O'Neill:

"I think gambling on horses is a game of fools.

"I never bet, and I never give tips to friends.

"The only certain thing about horse racing is its uncertainty.

"The merest trifle may transform the certain winner of one moment into the certain loser of the next.

"No jockey who knows the game regards his race as won until the judge has hoisted the winning number."

Idol of French Tracks.

O'Neill is the idol of the French tracks and in 14 years' racing in Europe has won 1,300 races, prizes to the owners ranging from 2,000 to 1,000,000 francs.

You can't find O'Neill loafing about the boulevards or race tracks or jazzing around Montmartre. He has a house and garden in the suburb of Maisons Laiffite, where he lives with his wife, his 15-year old son and two little daughters.

"I've been successful and I've made money," says O'Neill. "But I don't make anything like the huge sums dopesters say I do. When I'm not riding I'm at home playing with the kids."

SCHEDULE OF HORSE SHOE PITCHING TOURNAMENT

(Second Elimination)

Thursday, August 10, 7 p. m., Machine Shop courts: Keystone Ice Cream 1, Ennis and Ogden, Textile, Witherow and Jay; Brunner and Hughes, Cowdick and Shaw; Duckett and Wilson, Peters and Shipley; Keystone Ice Cream 3, Hazley and Sande.

Friday, August 11, 7 p. m., Machine Shop courts: McCloskey and Leasure, Smith and Johnson; Haney and Gilbert, Flegal and Flegal; O'Donnell and Hixon, Hudson and Hudson.

Last entries to be announced tomorrow. Men, please note when you play and be there.

As Proved by History.

"What will become of our young people?" wails a reformer. Oh, they'll grow old and worry about the young people.—*Brooklyn Star*

Planets Named After the Gods.

The planets derived their names from the mythological gods or goddesses.

HAS THE COAL

Continued From Page One

since improved it considerably.

At the death of Attorney Nolan a few months ago the title to the coal under the Burchko place became vested in Mrs. Blanche Nolan, widow of James Nolan.

About July 20th a son-in-law of Mrs. Nolan's came to Clearfield from Altoona and employed Fred M. Burchfield of Turnpike avenue, to go upon the Leitzinger place and proceed to prospect for and open the coal. Mr. Burchfield did so and quickly discovered a 30-inch vein of coal.

Learning of the mining operation upon his farm, Mr. Leitzinger had a warrant issued for the prospector for trespass, and on August 2d last Squire F. G. Chorpennig, after hearing the evidence, summarily convicted Mr. Burchfield under the trespass law and he was given a fine and costs amounting to \$25.75.

The testimony at the hearing disclosed that Mrs. Nolan owned the coal, but as her tax deed made no provision for going upon the ground to mine and remove same, the title held that Mr. Leitzinger, who owned the surface and had his lands properly posted against trespassers, was fully within his rights when he arrested the prospector as a trespasser and the fine provided by the Act of Assembly was accordingly imposed.

An appeal from the 'squire's decision has been taken and Judge Ball fixed September 1st as the day for hearing argument on the appeal.

Early Start.

A doctor lately married a girl whom he had ushered into the world twenty years ago. Real love at first sight.—*London Opinion.*

Knowledge Possessed by Few

There seems to be no part of knowledge in fewer hands than that of discerning when to have done.—*Sybil.*

Asparagus is believed to be the oldest known plant used for food.

CAR AND OCCUPANTS

Continued From Page One

taken to the Clearfield hospital for medical treatment and are getting along very nicely at this writing, Mrs. Smith having practically fully recovered from her injuries.

Another Wreck.

James McLaughlin, the Third street barber, had a perfectly good automobile ride spoiled last evening when his car slid over the bank off the Penfield road out near Moose Creek reservoir and upset. It was one of those lucky auto smash-ups as nobody was hurt, but the machine will never look the same.

BASEBALL CARTOON ON DISPLAY

Rev. Rodell, the Methodist pastor at Woodland, is considerable of a cartoonist. The series of games between the American Legion ball team and the Gearhart Yarnbusters moved the reverend gentleman's artistic bent and he sat down and dashed off a very clever sketch in which the situation as it exists today is accurately depicted. He presented the sketch to the sports department of The Progress and we have the same on display in our window.

Ask Yourself These Questions.

Do you count your birthdays thoughtfully? Forgive your friends? Grow gentler and better with advancing age?—*Honoree*

Judgment.

Matrimony seems, generally speaking, to be a court proposition. He begins by suing for her hand and she ends by suing him for alimony.

"Dry" Wines.

Wines are referred to as dry when completely fermented, only 0.1 per cent of sugar remaining.

FIREMEN GOING TO DUBOIS OUGHT TO TAKE BAND ALONG

The Clearfield Fire Department held its regular monthly meeting Friday, Aug. 4 in the Second ward hall and with the business transacted declared their intention of attending in full force the Central District Volunteer Firemen's Association convention at DuBois, Aug. 17. On the same evening the ladies of the Reedsville chapel were giving an ice cream and cake festival on the chapel lawn. After the firemen's meeting had adjourned, the boys all went up and partook of ice cream and trimmings to suit. While this was going on Kay Patton relieved himself of considerable auctioning blandishments by which he succeeded in disposing of a lot of surplus coffee and other things, including several dozen apple pies. And say, pieface, those pies were "some punkins"; one fellow said his was a peach, but it was all apple. A prominent druggist, who should know the danger of eating pie, brought three of them down town with him. The pies haven't been seen since, but said druggist maintains his usual good health and volubility.

However, while pies are pies, the firemen are all going to attend the convention wearing their best uniforms and cigarettes, and at the same time show the folks of the upper left-hand corner of the county some of the good things Clearfield has; by which we mean that the Fire Department will be accompanied to the convention by the American Legion band.

Now, fellow citizens, money makes the band play. The members of the band meet for rehearsals fifty-two times a year. This number is increased quite a bit when preparing

for a concert or something special. This week the firemen will solicit the necessary funds to take the band to the convention at DuBois, where it is expected they will capture first prize in the band contest. Let everybody help some, more or less, and make the band feel that it is appreciated.

CHILDLESS HOMES MADE HAPPY

Presence of Little Ones a Great Blessing

Four Interesting Letters

Cortland, N. Y.—"I took Lydia E. Pinkham's Vegetable Compound because I was weak and wanted to become strong and have a child. My husband read about it in the Cortland Standard and thought it might help me. It certainly did for I now have a lovely boy fifteen months old who weighs forty pounds. I recommend Lydia E. Pinkham's Vegetable Compound to my friends and you can certainly use my testimonial in your little books and in the newspapers, as it might help to make some other childless home happy by the presence of little ones as it has done mine."

Mrs. CLAUDE P. CANFIELD, 10 Salisbury St., Cortland, N. Y.

Married Three Years

Brooklyn, N. Y.—"I am certainly very thankful to you for your Vegetable Compound. I was married three years and did not have a child. My husband had often heard of Lydia E. Pinkham's Vegetable Compound and he made me take it and I became the mother of the healthiest little boy I know. When my friends tell me their bad feelings the first thing I say is, 'Take the Vegetable Compound.' I am willing for you to use these facts as a testimonial."

Mrs. ANTOINETTE MARANO, 113 Nostrand Ave., Brooklyn, N. Y.

St. Louis, Mo.—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me seven years ago. I was run down and had a weakness such as women often have. I took Lydia E. Pinkham's Vegetable Compound and after being married sixteen years became the mother of a sweet little girl. I now have four lovely children—three fine boys and the little girl six years old. I had longed for children all the while and wept many a day and envied every woman with a child. I was 36 years old when my first baby was born. I recommend Lydia E. Pinkham's Vegetable Compound to any woman who is ailing with female weakness."

Mrs. J. NAUMANN, 1517 Benton St. St. Louis, Mo.

Was Weak and Run Down

St. Louis, Mo.—"My mother took Lydia E. Pinkham's Vegetable Compound when I was a girl, and when I was troubled with cramps I took it, and later when I married I again took it to make me strong as the doctor said I was weak and run down and could not have children. I took it and got along fine and now I have three girls. So you know why I keep the Compound in the house. I am a well woman and do my work and sewing too."

Mrs. JULIUS HARTMAN, 2501 W. Dodier St., St. Louis, Mo.

IF YOUR TRUCK ISN'T WORKING RIGHT WHY DON'T YOU BRING IT HERE?

Making trucks work right is the every day work of this place and you'll find that truck owners who have been doing this are getting a full day's work out of their trucks every day.

You invested money in your truck and you will want to get your money out of it through the medium of lowered delivery cost, but won't unless you keep that truck working all the time.

The trucks we are servicing are going every day. Yours will too, if you bring it here for service.

Hupmobile Reduces Prices

Effective August 1st.

In keeping with the trend of the times the HUPMOBILE automobiles are reduced in price.

Always in the forefront with lines of economy in production, always among the leaders of modern automobile design, always keeping in the van with the trend of the times, this reduction now places the HUPMOBILE in the light of a much better car for a popular price.

The announcement will be welcomed by hundreds who have been awaiting the welcome news and now you may have this wondercar at a really popular price.

CLAYSBURG BRICK PLANT SOLD FOR MILLION AND HALF

The General Refractories Company, which has long had a plant at Blue Ball and another at Sandy Ridge, the corporation virtually beginning business with the Blue Ball plant, has just purchased the Standard Refractories plant at Claysburg, paying \$1,500,000 for it.

William Sproul, Governor of Pennsylvania, is president of the General Refractories Company, which has a large plant at Sproul, Blair County, the town getting its name from the president of the company. The corporation recently purchased several other plants, which are being merged into one company and will have an output in excess of their silica brick plants. The company has a five year contract with the steel corporation, guaranteeing full capacity operation for all its plants.

Fire Tree.

One of the most extraordinary of Australian trees is the "fire tree," which is common in New South Wales. When in full bloom it is a mass of flame-colored flowers, and looks at a distance like a tree on fire.

Texas "Midway City."

San Antonio, Texas, is nearest "midway" on the southern route from New York to San Francisco. It is 1,943 miles from New York city and 1,811 miles from San Francisco.

Porch Frocks

Copyright by McCall.

Porch frocks have become charming affairs of printed mousseline de fine, voile, ratine, cotton crepe, tulle or canvas. Often they're trimmed with hemstitching or rawn work.

Friends an Expensive Luxury.

Friends are an expensive luxury; and when a man's whole capital is invested in a calling and a mission in life, he cannot afford to keep them. The costliness of keeping friends does not lie in what one does for them, but in what one, out of consideration for them, refrains from doing. This means the crushing of many an intellectual germ.—Letter, Inson to Brandes, 1870

Chalmers' Recipe.

The grand essentials of happiness are—something to do, something to love and something to hope for.—Boston Transcript

PUBLIC HEALTH IS IN GOOD SHAPE OWING TO CO-OPERATION

According to the records of the local Board of Health, Clearfield has been much freer from disease during the even months just past than for a similar period during 1921. The total number of communicable or contagious diseases reported to the Board of Health during the seven months of 1921 was 380, while for the seven months of 1922 but 274 cases were reported.

This is indeed a satisfactory showing and is attributable, Secretary Gaulin says, largely to the fact that our people are obeying the rules of the Health Board. One highly gratifying feature of the report is the fact that while there were five cases of typhoid fever in 1921, not a single case has been reported this year, thanks largely to the strenuous measures used to stamp out possible causes of infection during the latter part of last year.

Comparative Figures for the Two Years.

Comparison infections and quarantined disease for the first seven months of 1921 and 1922:

Disease	1921	1922
Scarlet fever	38	7
Diphtheria	36	28
Chicken pox	116	23
Typhoid fever	5	0
Measles	150	189
Mumps	21	46
Whooping cough	14	26

Totals

Three Scourges Being Curbed.

In reading the above figures kind-

ly note the difference for the better concerning scarlet fever and diphtheria, the terrors of childhood, and typhoid fever.

The Board of Health naturally feels gratified over this showing, and offer the suggestion that Clearfield people be careful regarding the water they drink from springs in the woods and along the roadsides when traveling or on vacation. Many times these springs are sources of contagion.

Be Careful of Waste Matter.

The Board also advises against the throwing of waste vegetable matter in backyards or in the alleys. Use lots of lime around your premises. Remember, that an ounce of prevention is worth a pound of cure and don't forget to swat the fly.

Born, to Mr. and Mrs. Manuel Kado of West Locust Street, a nine pound girl yesterday morning.

They Said She Had No "Social Value"
because she had been a sales-girl before she married a society husband.

She didn't know what the term meant, but she found out.

And she showed those dowagers and grande dames just what her value was.

Then she faced the biggest question—"Which shall be broken—a Man's Life or a Woman's Heart?"

No heat with this summer meal

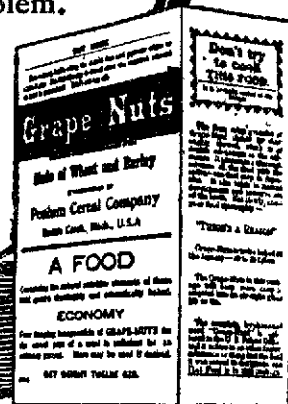

A DISH of crisp, delicious Grape-Nuts, with cream or milk (some berries or fresh fruit, too, if you like) is cooling to serve, cooling to eat and cooling to digest—with a charm of flavor and goodness that rouses appetite enthusiasm. No preparation, no cooking—no heating of the body afterward, as heavy, starchy meals do—but well-rounded nourishment for every bodily need.

There's a noticeable feeling of lightness and comfort after such a meal.

Try this way out of the heat, bother and uncertainty that usually goes with the midsummer food problem.

Order Grape-Nuts from your grocer today.

They're Off!

Gossip For Tonight's Tea Table

Mr. and Mrs. Frank W. Short and son John F., 2nd, of Philadelphia are guests at the home of Editor John F. Short on Market Street at present.

Miss Jane Graft attended a dance at DuBois last evening.

Mr. and Mrs. John R. Gearhart and family will leave tomorrow morning for Atlantic City and expect to spend the coming two weeks on a motor trip along the Atlantic Coast.

These are striking times and Babe Ruth is doing his part.

Miss Betty Ruth Litz will leave Clearfield today to spend two weeks with friends at Olanta.

She will also visit friends and relatives at Surveyor.

Mrs. Hollenback of Philadelphia is visiting her sister, Mrs. Harry Brown, on Turnpike avenue.

Mr. and Mrs. C. E. Weeks of Shanghai, China, who have been visiting L. A. Banta and family, left for Washington, D. C., Monday. Mrs. L. A. Banta, sister of Mrs. Weeks, accompanied them.

Mr. and Mrs. William J. Sencer and Mr. and Mrs. Herbert Sencer have returned from a motor trip to Pittsburgh, after visiting friends and relatives.

Elinor Forsythe, who has been suffering the last three weeks, was taken to the hospital on Monday evening and had her arm operated on and is getting along nicely.

Mr. and Mrs. George Taylor, who had been visiting at the home of his brother, ex-Tax Collector Ed R. Taylor on Walnut street for the past week, left this morning by automobile for their home in Dayton, O.

J. A. Ritter and family, of Olanta, spent Sunday at the home of D. D. Long.

D. D. Long and little sons, Merritt and Homer, motored to Olanta on a business trip.

Hyman Mirkin, of Steubenville, Ohio, is visiting at the home of his uncle A. Mirkin on South Second street.

Miss Amelia Chorpensing is visiting friends in Harrisburg.

Miss Ruth Rowe is spending a few days at Indiana among friends.

Mrs. Ralph Myers has been confined to her home for the past two weeks with rheumatism.

Mrs. Annie Merat of Meadville spent a few days with her brothers in Frenchville and on the return trip home, stopped between trains with her cousin, Mrs. Ralph Myers. Mr. Merat expects to be transferred to Chicago in the near future.

Extinguishing Burning Oil.

An easy way to extinguish burning oil has been discovered by varnish factories, who use fine-meshed wire net for this purpose. As soon as the net covers the burning surface, the iron wires conduct the heat so rapidly that the gas can no longer flame. This is the principle of the Davy safety lamp.

Loss Weight When Submerged.

Water has a buoyant effect. Any object weighs less in water than in air. The decreased weight is equal to the weight of the water displaced. When you get a chance, hold a rock under water and notice its heaviness; then lift it above the water and feel its increased weight.

PENNA. 44 BREAKS ALL RECORDS OVER AT WARRIORS MARK

The wheat of the wheat variety test conducted on the farm of C. A. Geist, near Warriorsmark, has been threshed and the results are given below:

Rank	Variety	Per Acre	Glumes
1.	Penn'a. 44	37.4 bus.	Bearded
2.	Leaps Prolific	32.0 bus.	Smooth
3.	Harvest King	30.8 bus.	Smooth
4.	Eclipse	30.1 bus.	Bearded
5.	Fulcaster	29.1 bus.	Smooth
6.	China (B. S.)	27.0 bus.	Bearded
7.	Reliable	26.8 bus.	Bearded
8.	Red Rock	25.7 bus.	Bearded
9.	Check	25.7 bus.	Bearded

This test was conducted last year and records kept of the productions. More confidence can be placed in an average of two years' results than in just one. The average yield for the two years appear below:

Rank	Variety	Average Yield
1.	Penn'a. 44	28.8 bus.
2.	Leaps Prolific	29.9 bus.
3.	Fulcaster	25.8 bus.
4.	Eclipse	25.2 bus.
5.	Harvest King	24.7 bus.
6.	China (Blue Stem)	24.45 bus.
7.	Reliable	24.6 bus.
8.	Red Rock	23.2 bus.
9.	Check	22.8 bus.

Results similar to the above have been secured in several counties throughout the state and variety tests such as the above have served to demonstrate to wheat growers the importance of careful selection of seed. There is much Fulcaster wheat grown throughout Huntingdon county. "Pennsylvania 44" on the two-year average has shown an increase of four bushels per acre. This four-bushel increase per acre will reduce the cost of producing a bushel of wheat under present cost prices by at least twenty cents per bushel. This lowered cost calculated on the 350,000 bushels of wheat produced in Huntingdon county annually, according to the census, will represent a saving of \$76,000. There are 2,111 farms in Huntingdon county, so that the saving would mean an average of \$36 per farm.

Those who do not have "Pennsylvania 44" wheat and wish to get some may probably do so by getting in touch with the county agent at Huntingdon. There is getting to be considerable wheat offered on the market under the name of "Pennsylvania 44." There may be an opportunity for misrepresentation of seed wheat. The county agent has been locating the genuine "Pennsylvania 44" seed wheat in the county during the recent harvest season.

Catch A Cold With The Change?

This storm period and the chill wave that followed is going to bring a lot of colds. Bring us that cold and we'll show you how to knock the spots out of it in a short time with our cold remedy.

This remedy is a conservative worker but does its work thoroughly.

Keeping Pace With a

Rapidly Growing Business

ANNOUNCING—BEGINNING (TODAY) WEDNESDAY—A BIG

STORE WIDE

ALTERATION AND FINAL REDUCTION SALE

AN ENTIRELY NEW AND IMPROVED STORE

ALL DEPT'S

The Big Alterations that are being made by this Store are the comment on all sides. In the next sixty or ninety days we will transform our entire store into a most modern and commodious shopping place—the ever-increasing numbers of enthusiastic shoppers calls for constant expansion and improvement in the aggressive store policy.

In order to lower stocks that have to be moved while the alterations are going on, also to clear away all remaining summer merchandise, we have planned this big alteration and final reduction sale.

There will be money-saving opportunities in every department.
BE HERE EARLY TOMORROW AND SHARE IN THESE BIG SAVINGS.
